TAHOE
1999

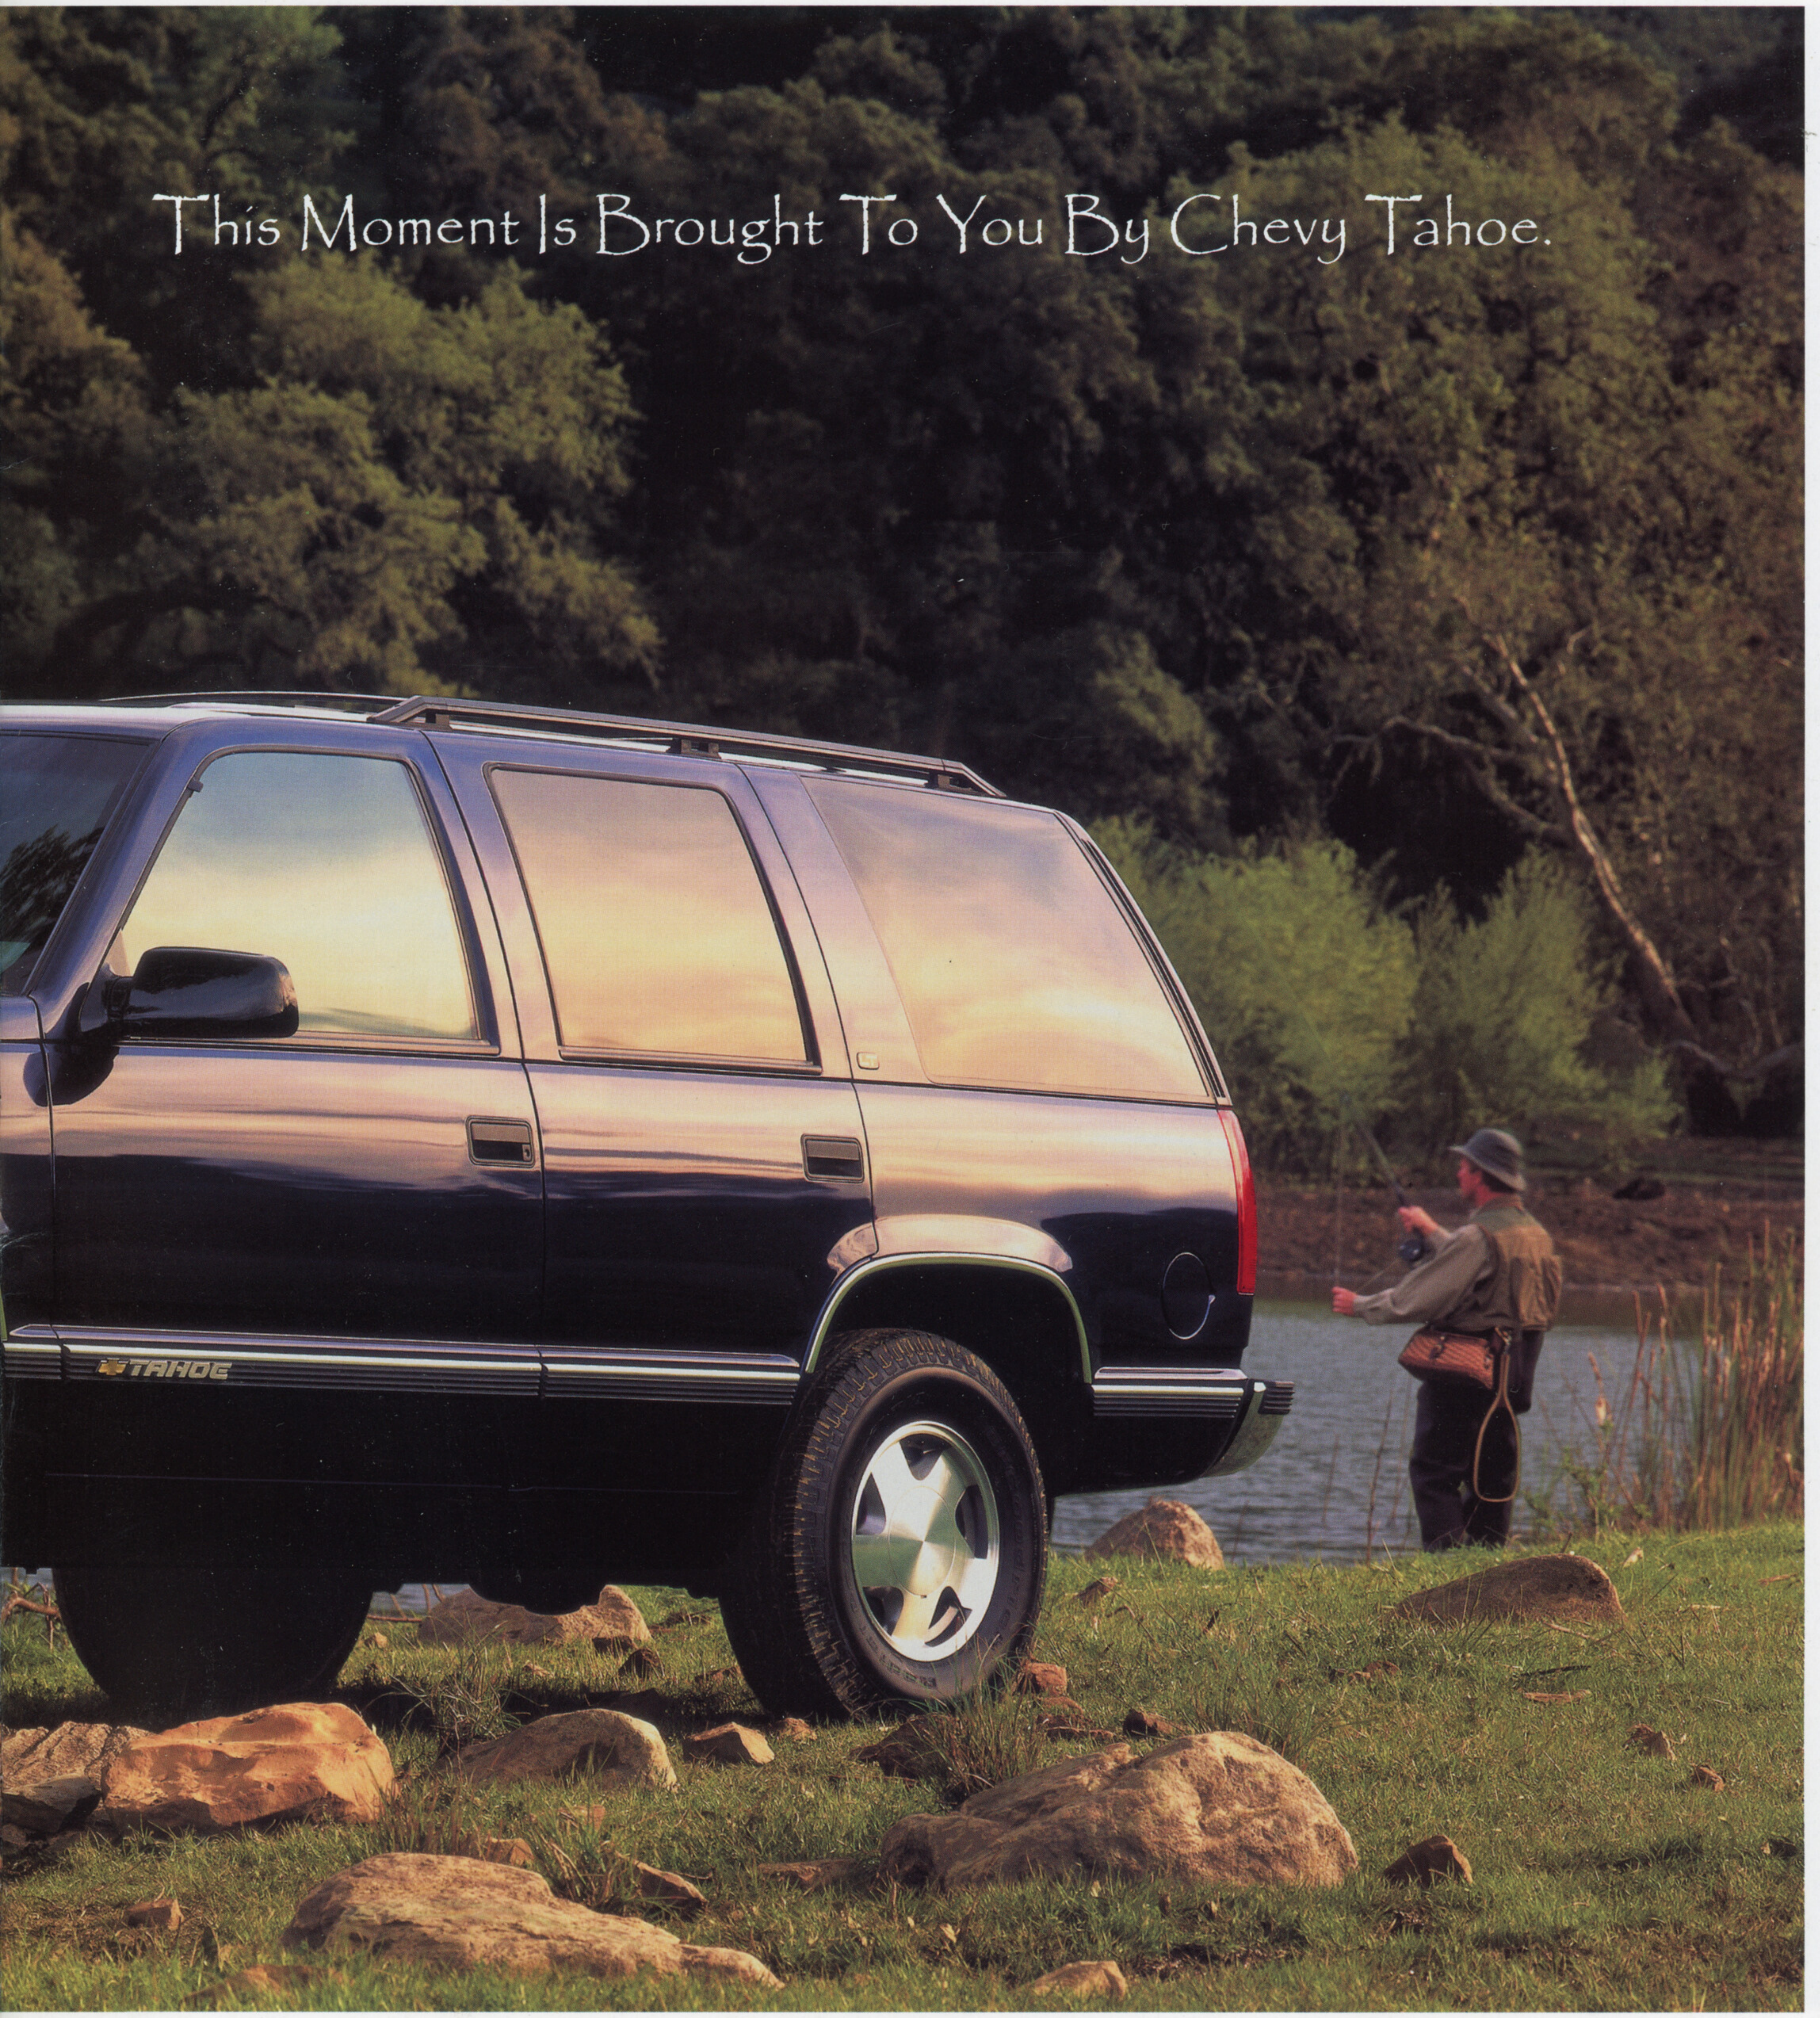

4-Door Tahoe LT 4x4 in Indigo Blue Metallic.

Tahoe is designed for those who are lured to an isolated lake few have ever seen. For those who somehow feel more at home away from home.

With the Comfort and Security Package, LT models include heated power self-dimming exterior mirrors and other features.

Chevy Tahoe. Built rugged and ready for all your adventures. After all, it's a Chevy Truck, the most dependable, longest-lasting trucks.*

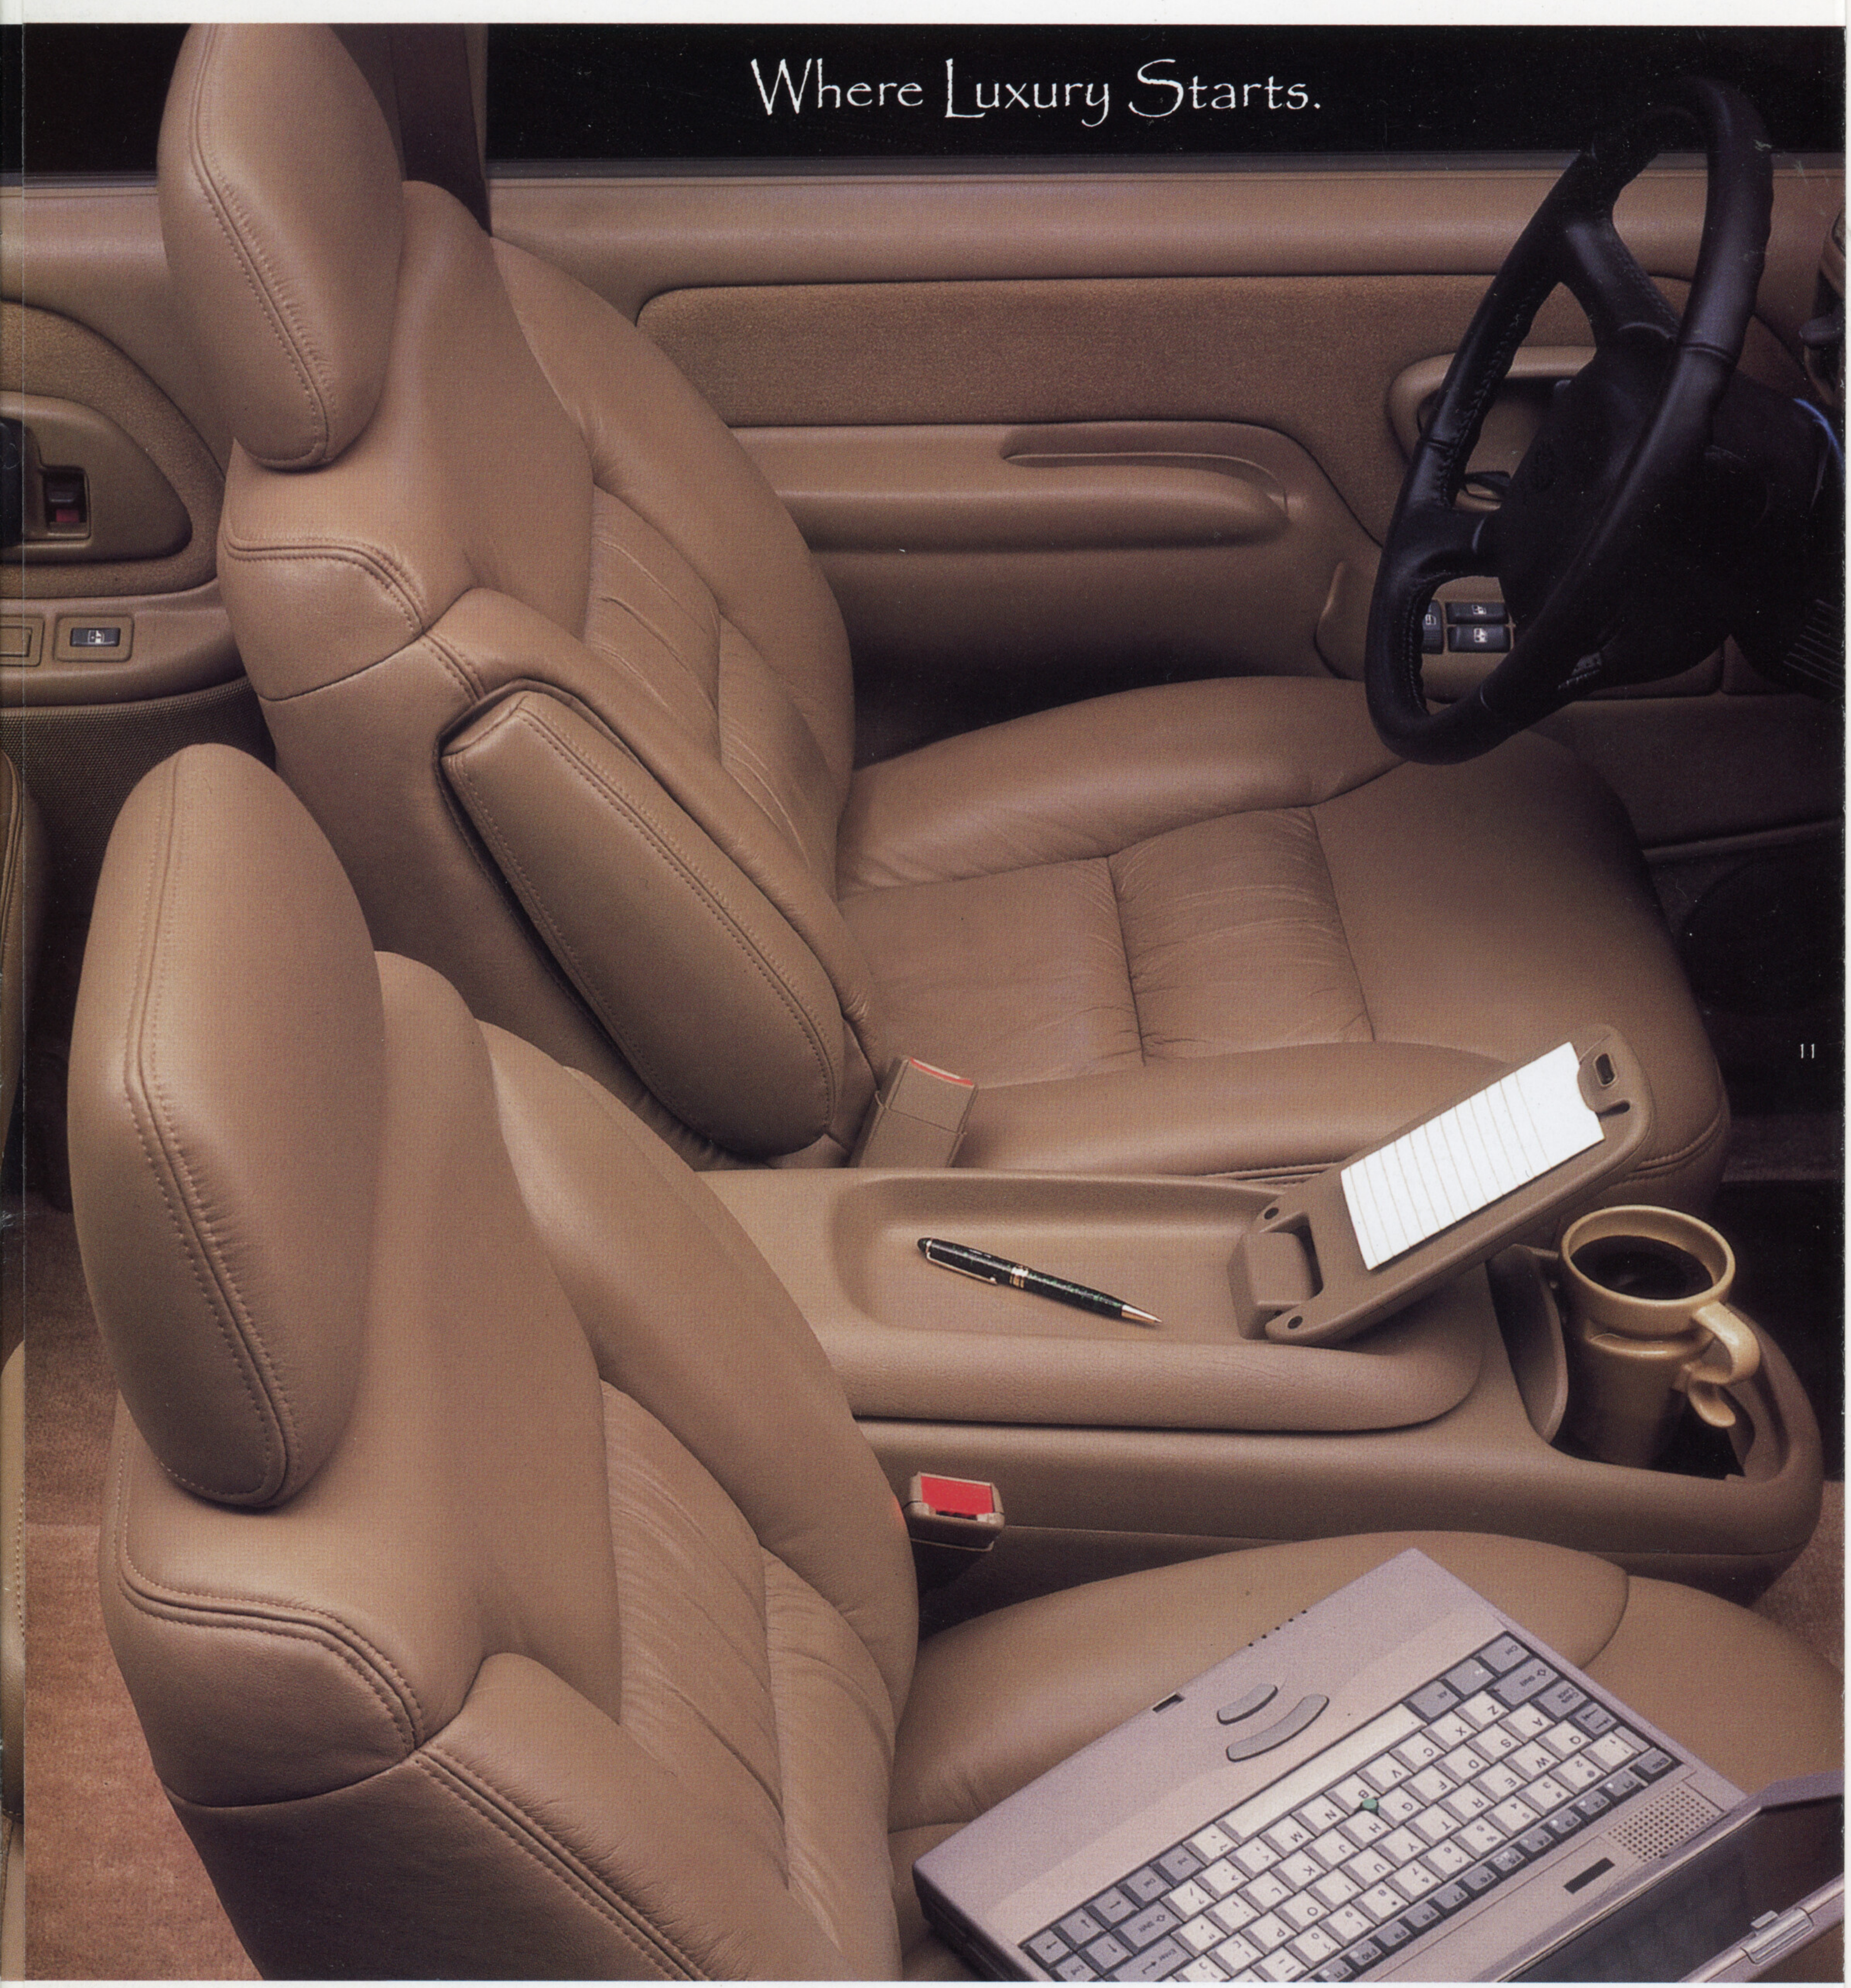

*Dependability based on longevity: 1981–1997 full-line light-duty truck company registrations. Excludes other GM divisions.

4-Door Tahoe LT interior with high-back bucket seats with Custom Leather seating surfaces in Neutral.

Where Luxury Starts.

SPACIOUS CARGO AREA.

Fold the 60/40 rear split-bench seat down and you have up to 118.2 cu. ft. of cargo space in 4-Door Tahoe. That's enough room for your fishing gear and then some.

CARGO-AREA DOOR LOCK.

Conveniently located inside the rear cargo area, a switch lets you lock and unlock all doors while at the rear of your vehicle.

REVERSIBLE CARGO MAT.

An available cargo mat is carpeted on one side to help protect your luggage and gear; vinyl on the other side for your tougher weekend assignments. It's included in the optional Comfort and Security Package.

CARGO-AREA SECURITY.

A retractable cargo shade in the rear of 4-Door Tahoe models helps conceal your valuables.

REAR-SEAT CONSOLE (SHOWN ABOVE).

Here's one more way Tahoe makes you feel comfortably at home. The split-folding rear seat features a pull-down armrest that also serves as a console, complete with tissue packet holder and two handy cup holders.

Nature has a way of providing lush accommodations for its wildlife. Chevy Tahoe LT has its own special ability to take care of you and your passengers. Deeply padded, Custom Leather seating surfaces support you in luxury, while a cassette/CD player and enhanced performance premium speakers surround you with sound. And available rear-seat air conditioning ensures rear-seat passengers never feel forgotten.

Where Your Adventure Begins.

4-Door Tahoe LT interior with Custom Leather seating surfaces and optional front high-back bucket seats with multi-feature center console. Shown in Neutral with additional options.

The going is anything but tough with the optional Comfort and Security Package on Tahoe LT. It includes heated front seats; heated, self-dimming outside mirrors; rear air conditioning (on 4-Door models); the HomeLink programmable transmitter and more. Ingenious storage areas await virtually anything you need to bring along for your next adventure. Leave civilization behind in a civilized way ... with Chevy Tahoe LT.

Console Convenience.

Front high-back bucket seats include a center console that features a slide-out storage tray. It's a great way to keep all the things you need organized.

Dual Cup Holders.

Swing-out dual cup holders let your rear-seat passengers take along a cup of coffee for the road. The cup holders are included as part of the front high-back bucket seat configuration.

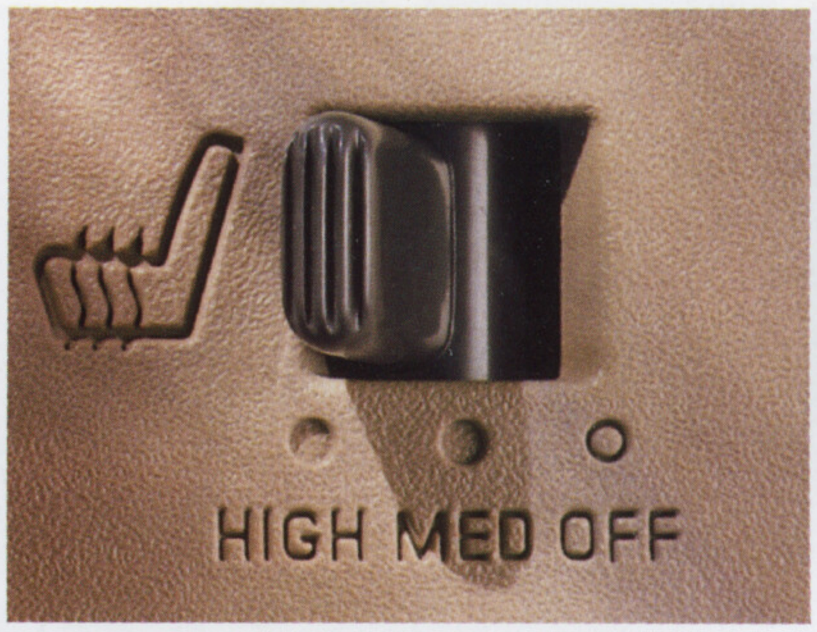

Overhead Console.

On models equipped with front high-back bucket seats, a convenient overhead console includes reading lights as well as a storage compartment for your sunglasses and the available HomeLink transmitter.

Tahoe LT 4x4 instrument panel shown with additional options.

Behind the wheel of Chevy Tahoe, you'll discover how a highly innovative cockpit design gives you a keen sense of control. Carefully placed controls and thoughtful, practical features surround you within the Tahoe driving environment. You'll always feel in charge in Tahoe — even when you're taming the wild.

HEATED FRONT BUCKET SEATS.
When the weather gives you the cold shoulder, warm things up with heated front bucket seats included in the available Comfort and Security Package.

HEATED OUTSIDE MIRRORS.
Dual heated outside mirrors, included with the available Comfort and Security Package, help keep your rear view clear of ice and snow. Mirrors are self-dimming to reduce headlamp glare.

REAR AIR CONDITIONING.
Optional rear air conditioning enhances the comfort of your rear-seat passengers. Controls are located conveniently overhead. The feature is included in the Comfort and Security Package on 4-Door models.

HOMELINK TRANSMITTER.
HomeLink, included with the available Comfort and Security Package, lets you operate garage doors and gates with the touch of a button.

Comfort And Security Package.

You'll add these and other features to your Chevy Tahoe when you choose this available package. See pages 29 and 32 for more information.

PREMIUM SOUND SYSTEMS.
Tahoe offers several available AM/FM stereo premium sound systems that include a cassette tape player, CD player or both, with up to six or eight speakers — depending on the model.

DUAL POWER OUTLETS.
Two standard covered power outlets are ideal for items like electronic accessories and cellular telephones.

AUTOTRAC PUSH-BUTTON 4x4.
In AUTO 4WD mode, the optional Autotrac 4x4 system detects rear wheel slippage and automatically transfers torque to the front wheels for enhanced traction, as road conditions warrant. You just set it, then forget it.

SELF-DIMMING REARVIEW MIRROR.
A self-dimming mirror helps to reduce glare. It features an outside temperature display and eight-point electronic compass.
(Not available with Base trim.)

The Perfect Host.

4-Door Tahoe LS 4x4 in Meadow Green Metallic. Shown with additional options.

Whether you're at the golf club, bounding over rolling hills or exploring a wooded ravine, Tahoe LS puts you right at home. Never pretentious, Tahoe LS gives you comfort and quality in every detail, with amenities such as a standard roof luggage

carrier and power exterior mirrors. And its size offers abundant room for passengers and cargo, so you're always in the swing of things. Tahoe LS. It's the perfect host, whether your pursuit is eagles, rainbows or birdies.

Fold-Down Storage Armrest.

The versatile fold-down storage armrest with 60/40 split-bench seat can hold your compact discs and cassettes, as well as provide a handy writing surface. A strap on the inside can even hold a road map.

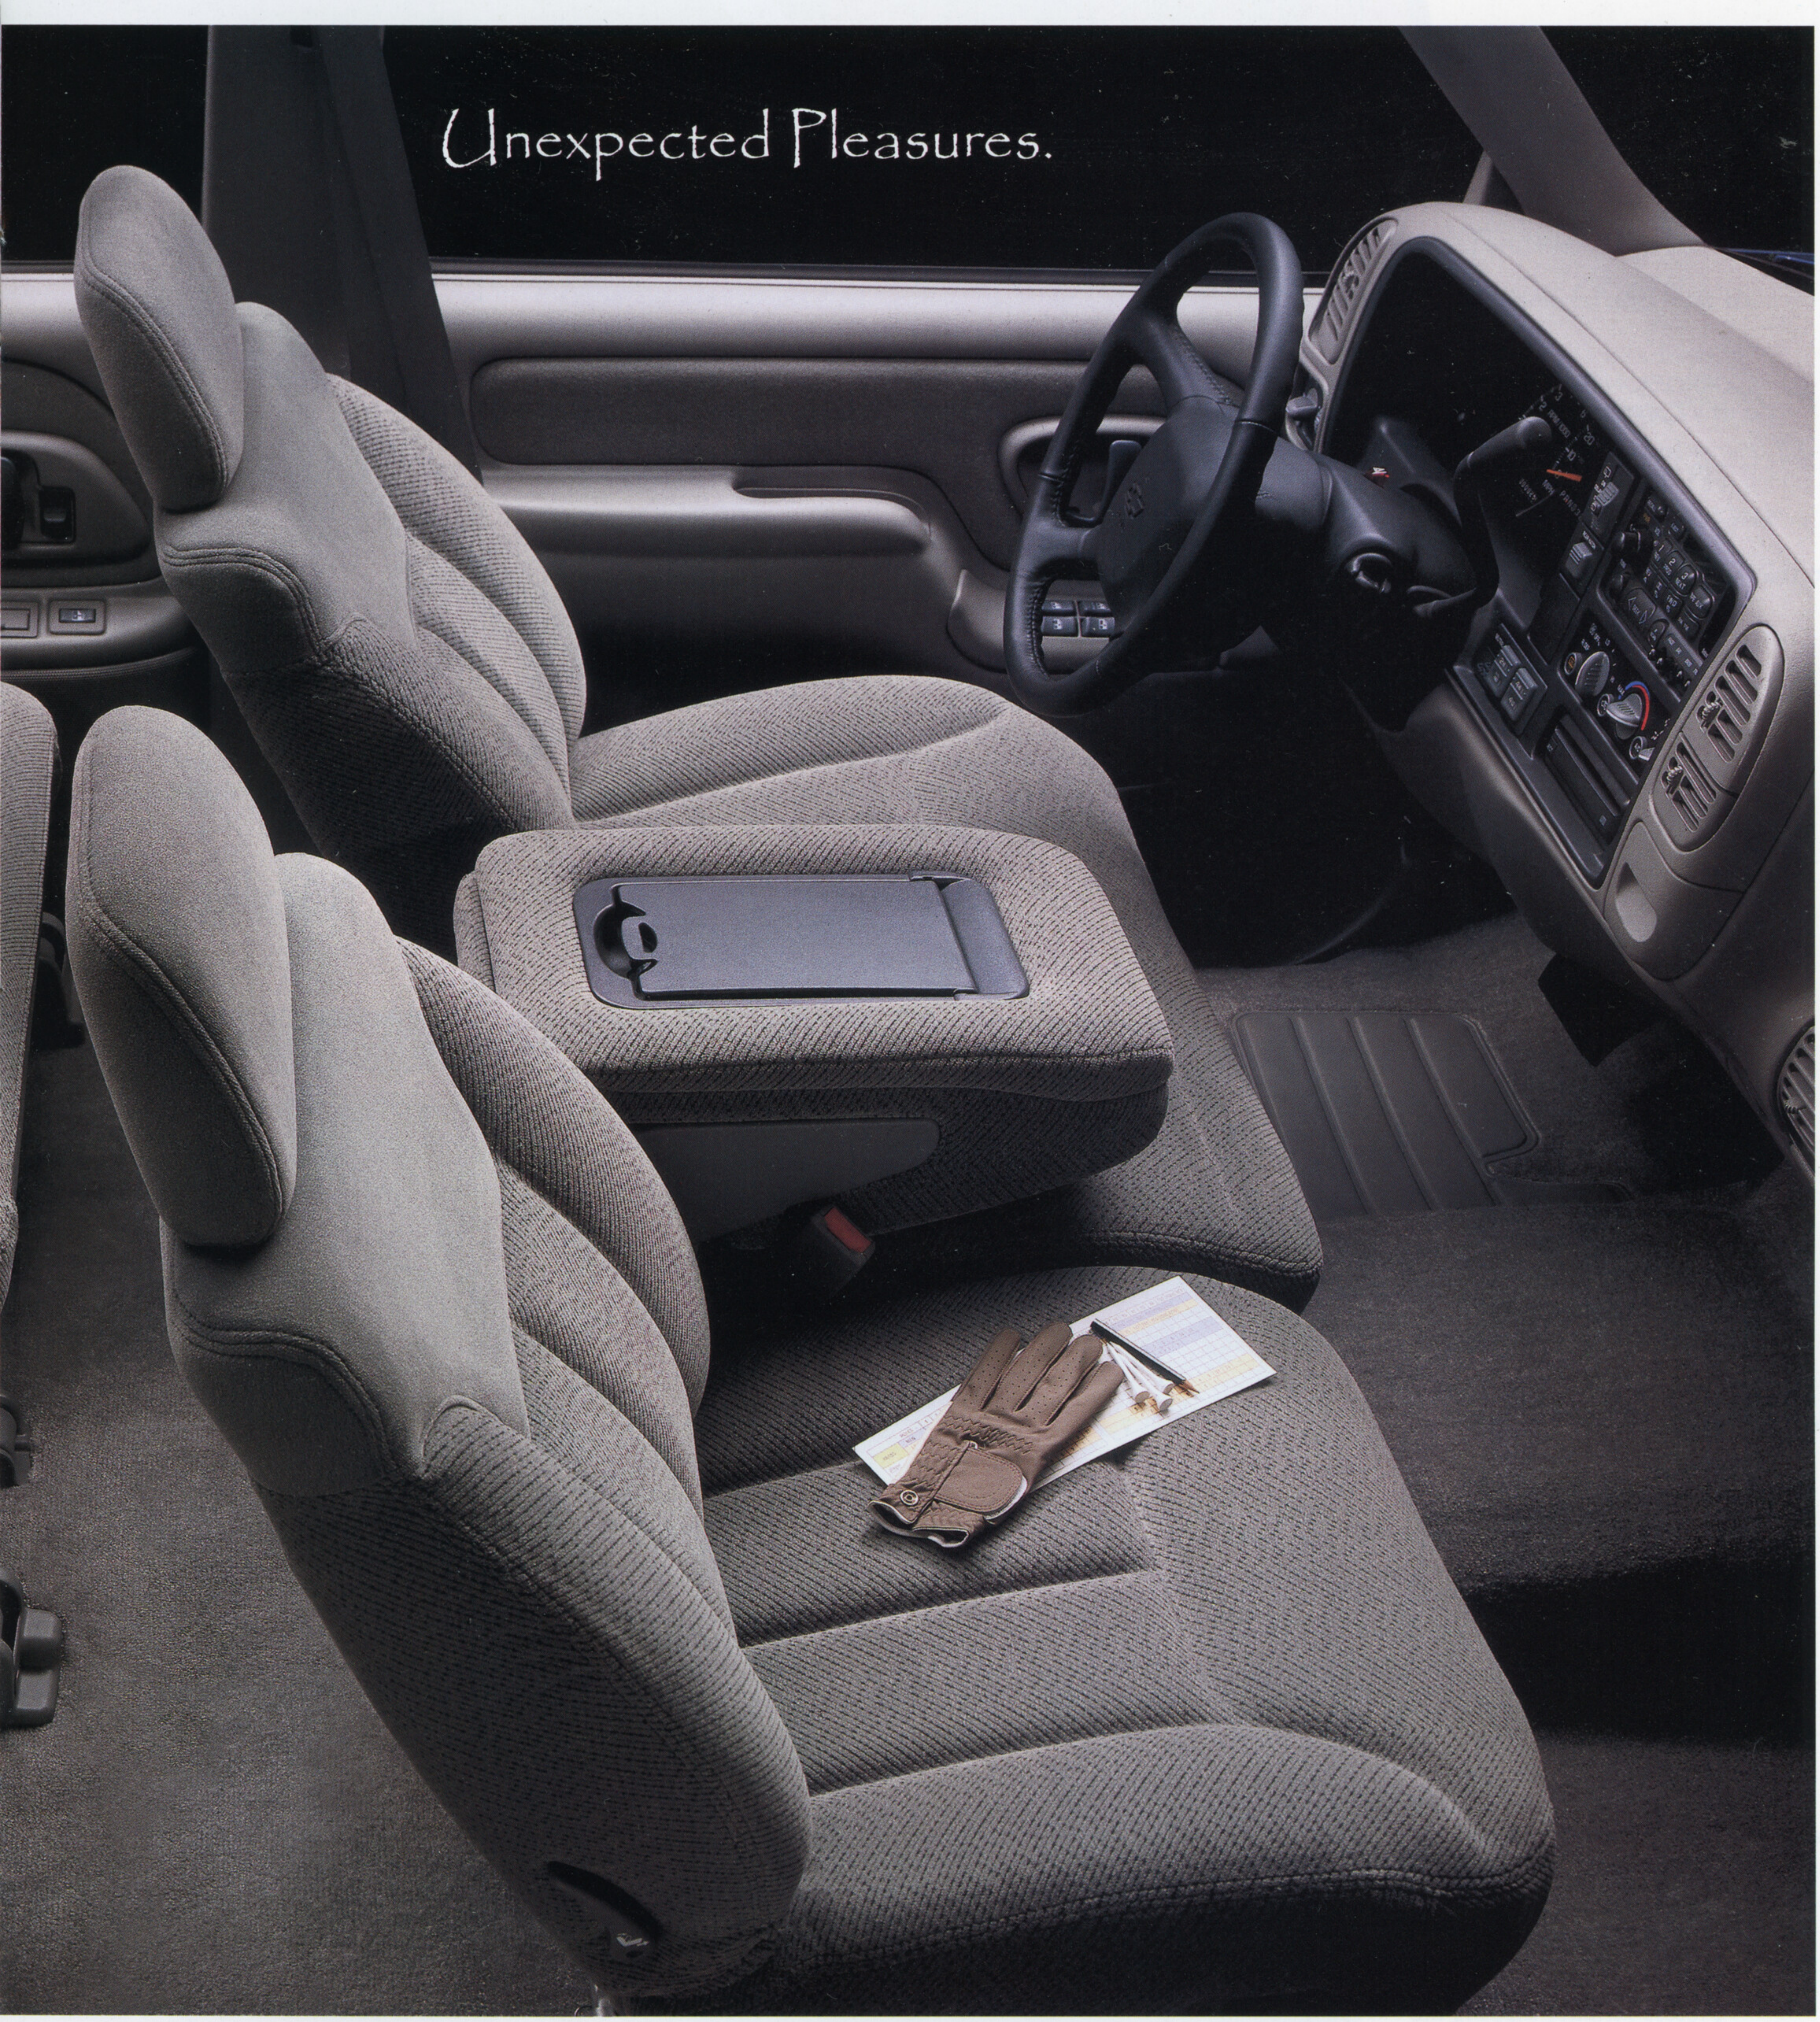

Scotchgard™ Protection.

The fabric in Chevy Tahoe features factory-applied Scotchgard™ protection. It helps the fabric repel most liquids, stains and dirt, while making it easy to clean.

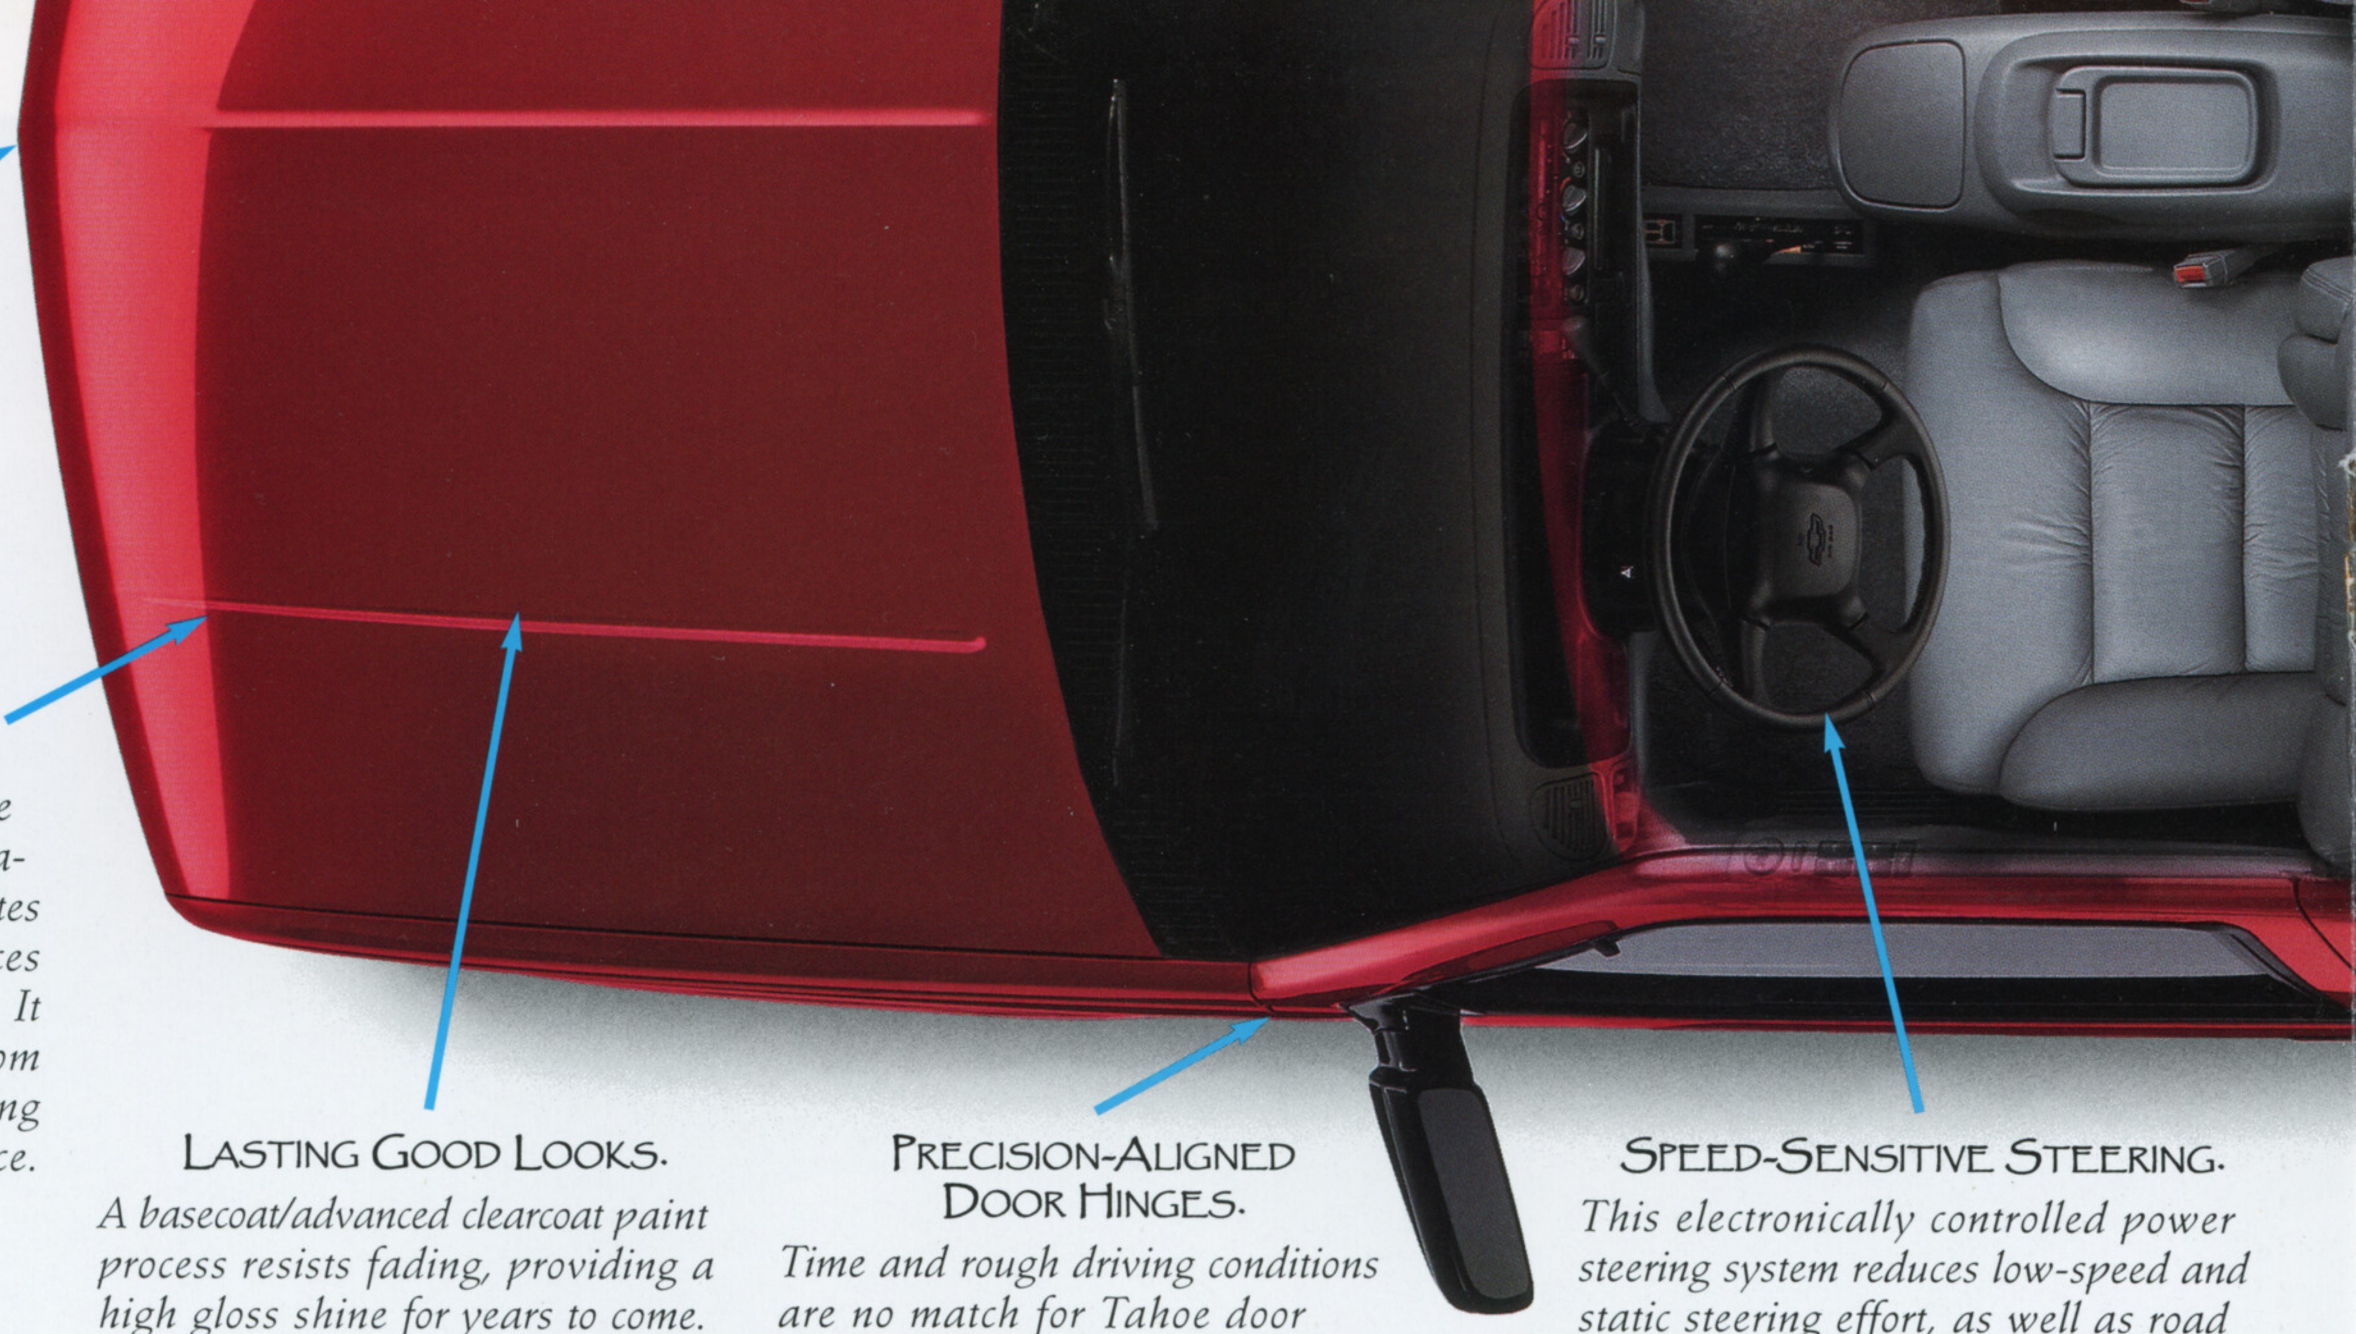

4-Door Tahoe LS interior in Gray Custom Cloth. Shown with additional options.

Experience Tahoe LS, and you'll be pleased by its uncanny ability to accommodate you, your passengers and your cargo in comfort and style. Standard power windows and deeply contoured Custom Cloth seats pamper you and up to five additional passengers.

A fold-down center storage armrest, Tilt-Wheel™ steering column, electronic speed control and Solar-Ray deep-tinted glass on rear windows are all standard. With Tahoe LS, you'll find convenience and versatility in every detail.

CRUSH ZONES.
Front and rear structures are designed to help absorb energy by deforming in a controlled manner during a collision.

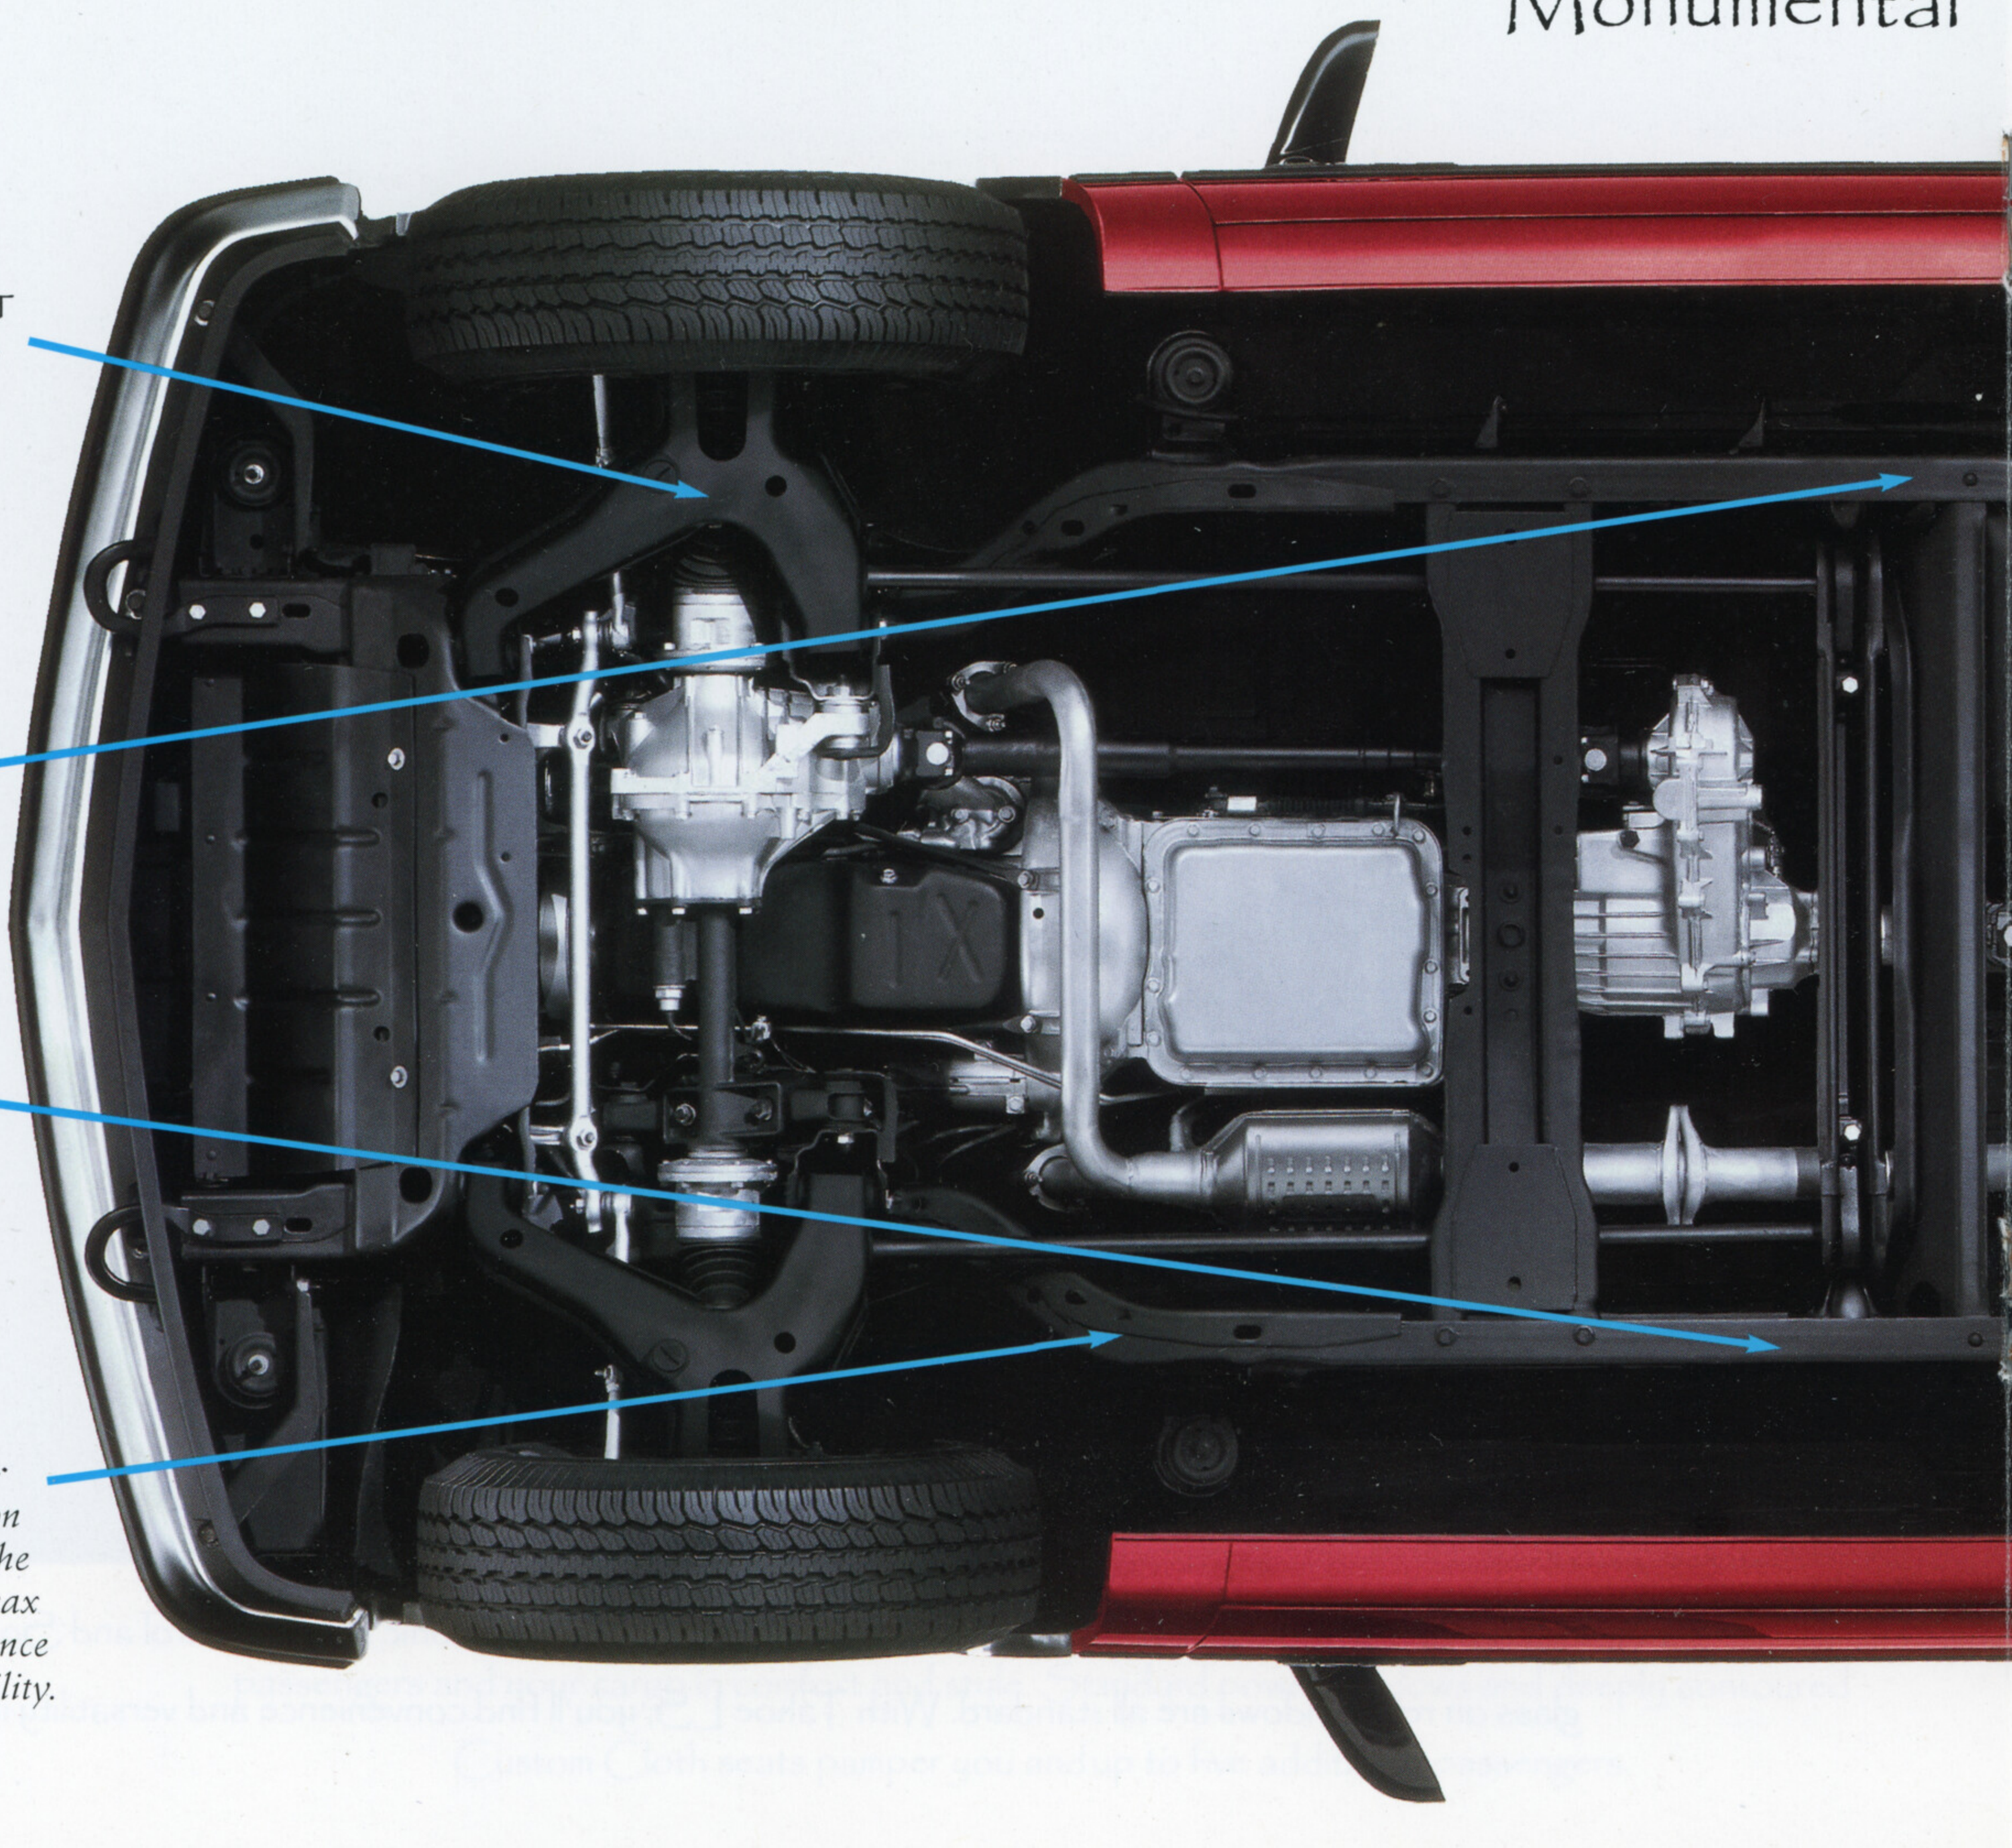

CORROSION-RESISTANT EXTERIOR PANELS.
All exterior body panels (except the roof) are made of two-sided galvanized steel that virtually eliminates corrosion on outside surfaces resulting from scratches and chips. It also protects panels from rust-through corrosion originating on the inside surface.

LASTING GOOD LOOKS.
A basecoat/advanced clearcoat paint process resists fading, providing a high gloss shine for years to come.

PRECISION-ALIGNED DOOR HINGES.
Time and rough driving conditions are no match for Tahoe door hinges. They're robotically welded to the door frame for a precise fit.

SPEED-SENSITIVE STEERING.
This electronically controlled power steering system reduces low-speed and static steering effort, as well as road feedback at highway speeds.

Monumental

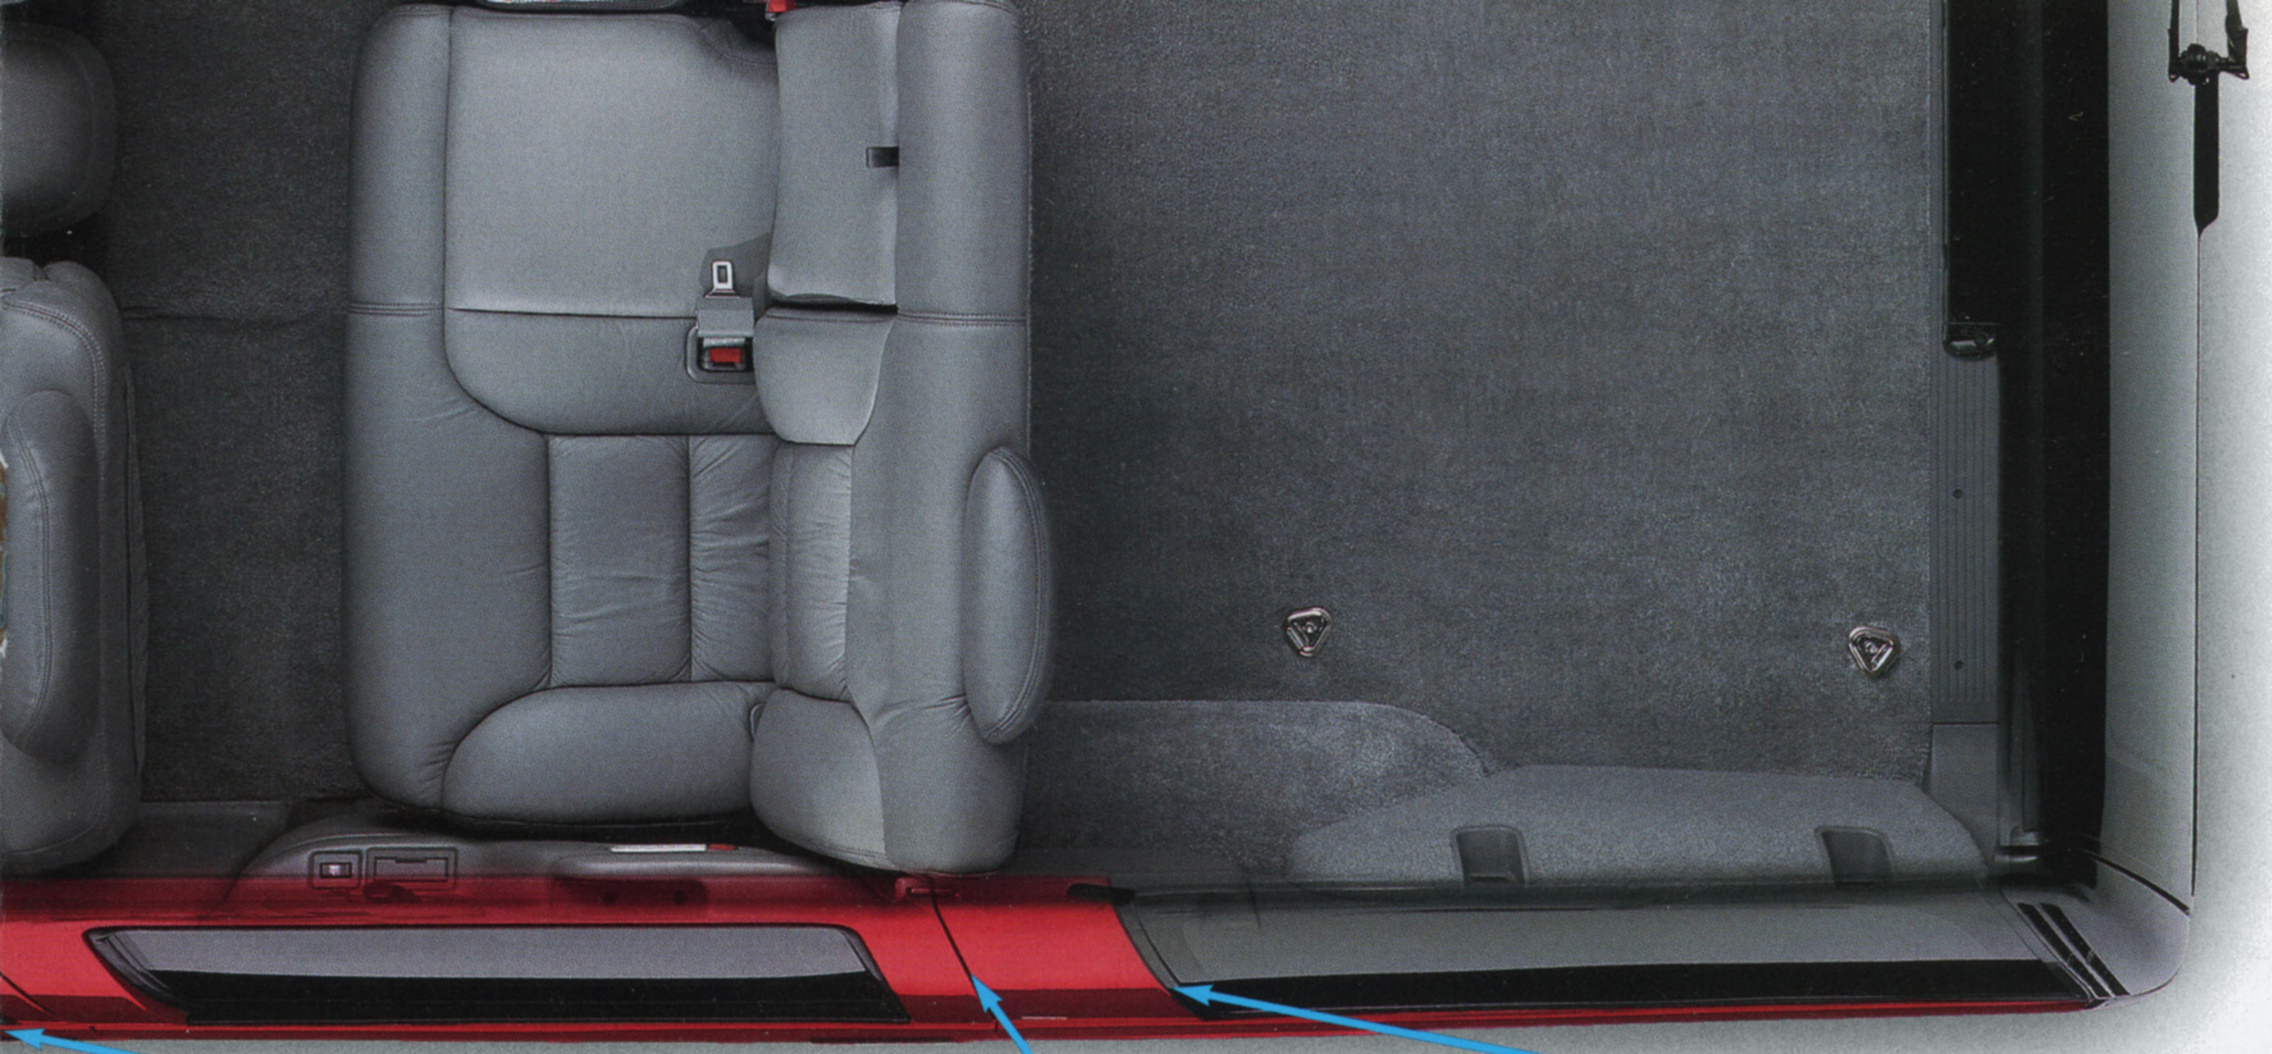

INDEPENDENT FRONT SUSPENSION.
A rugged and reliable independent front suspension helps the front wheels travel virtually straight up and down at all times for a stable ride and precise control.

STEEL LADDER-TYPE FRAME.
A steel ladder-type frame provides exceptional strength and rigidity. Boxed front sections help support the engine and front suspension.

DROP-CENTER FRAME DESIGN.
Thanks to a drop-center frame design, passengers have a low step-in height while the vehicle maintains excellent ground clearance.

WAX-DIPPED FRAME.
The Tahoe corrosion protection process includes dipping the entire frame in a special wax during assembly to enhance long-lasting durability.

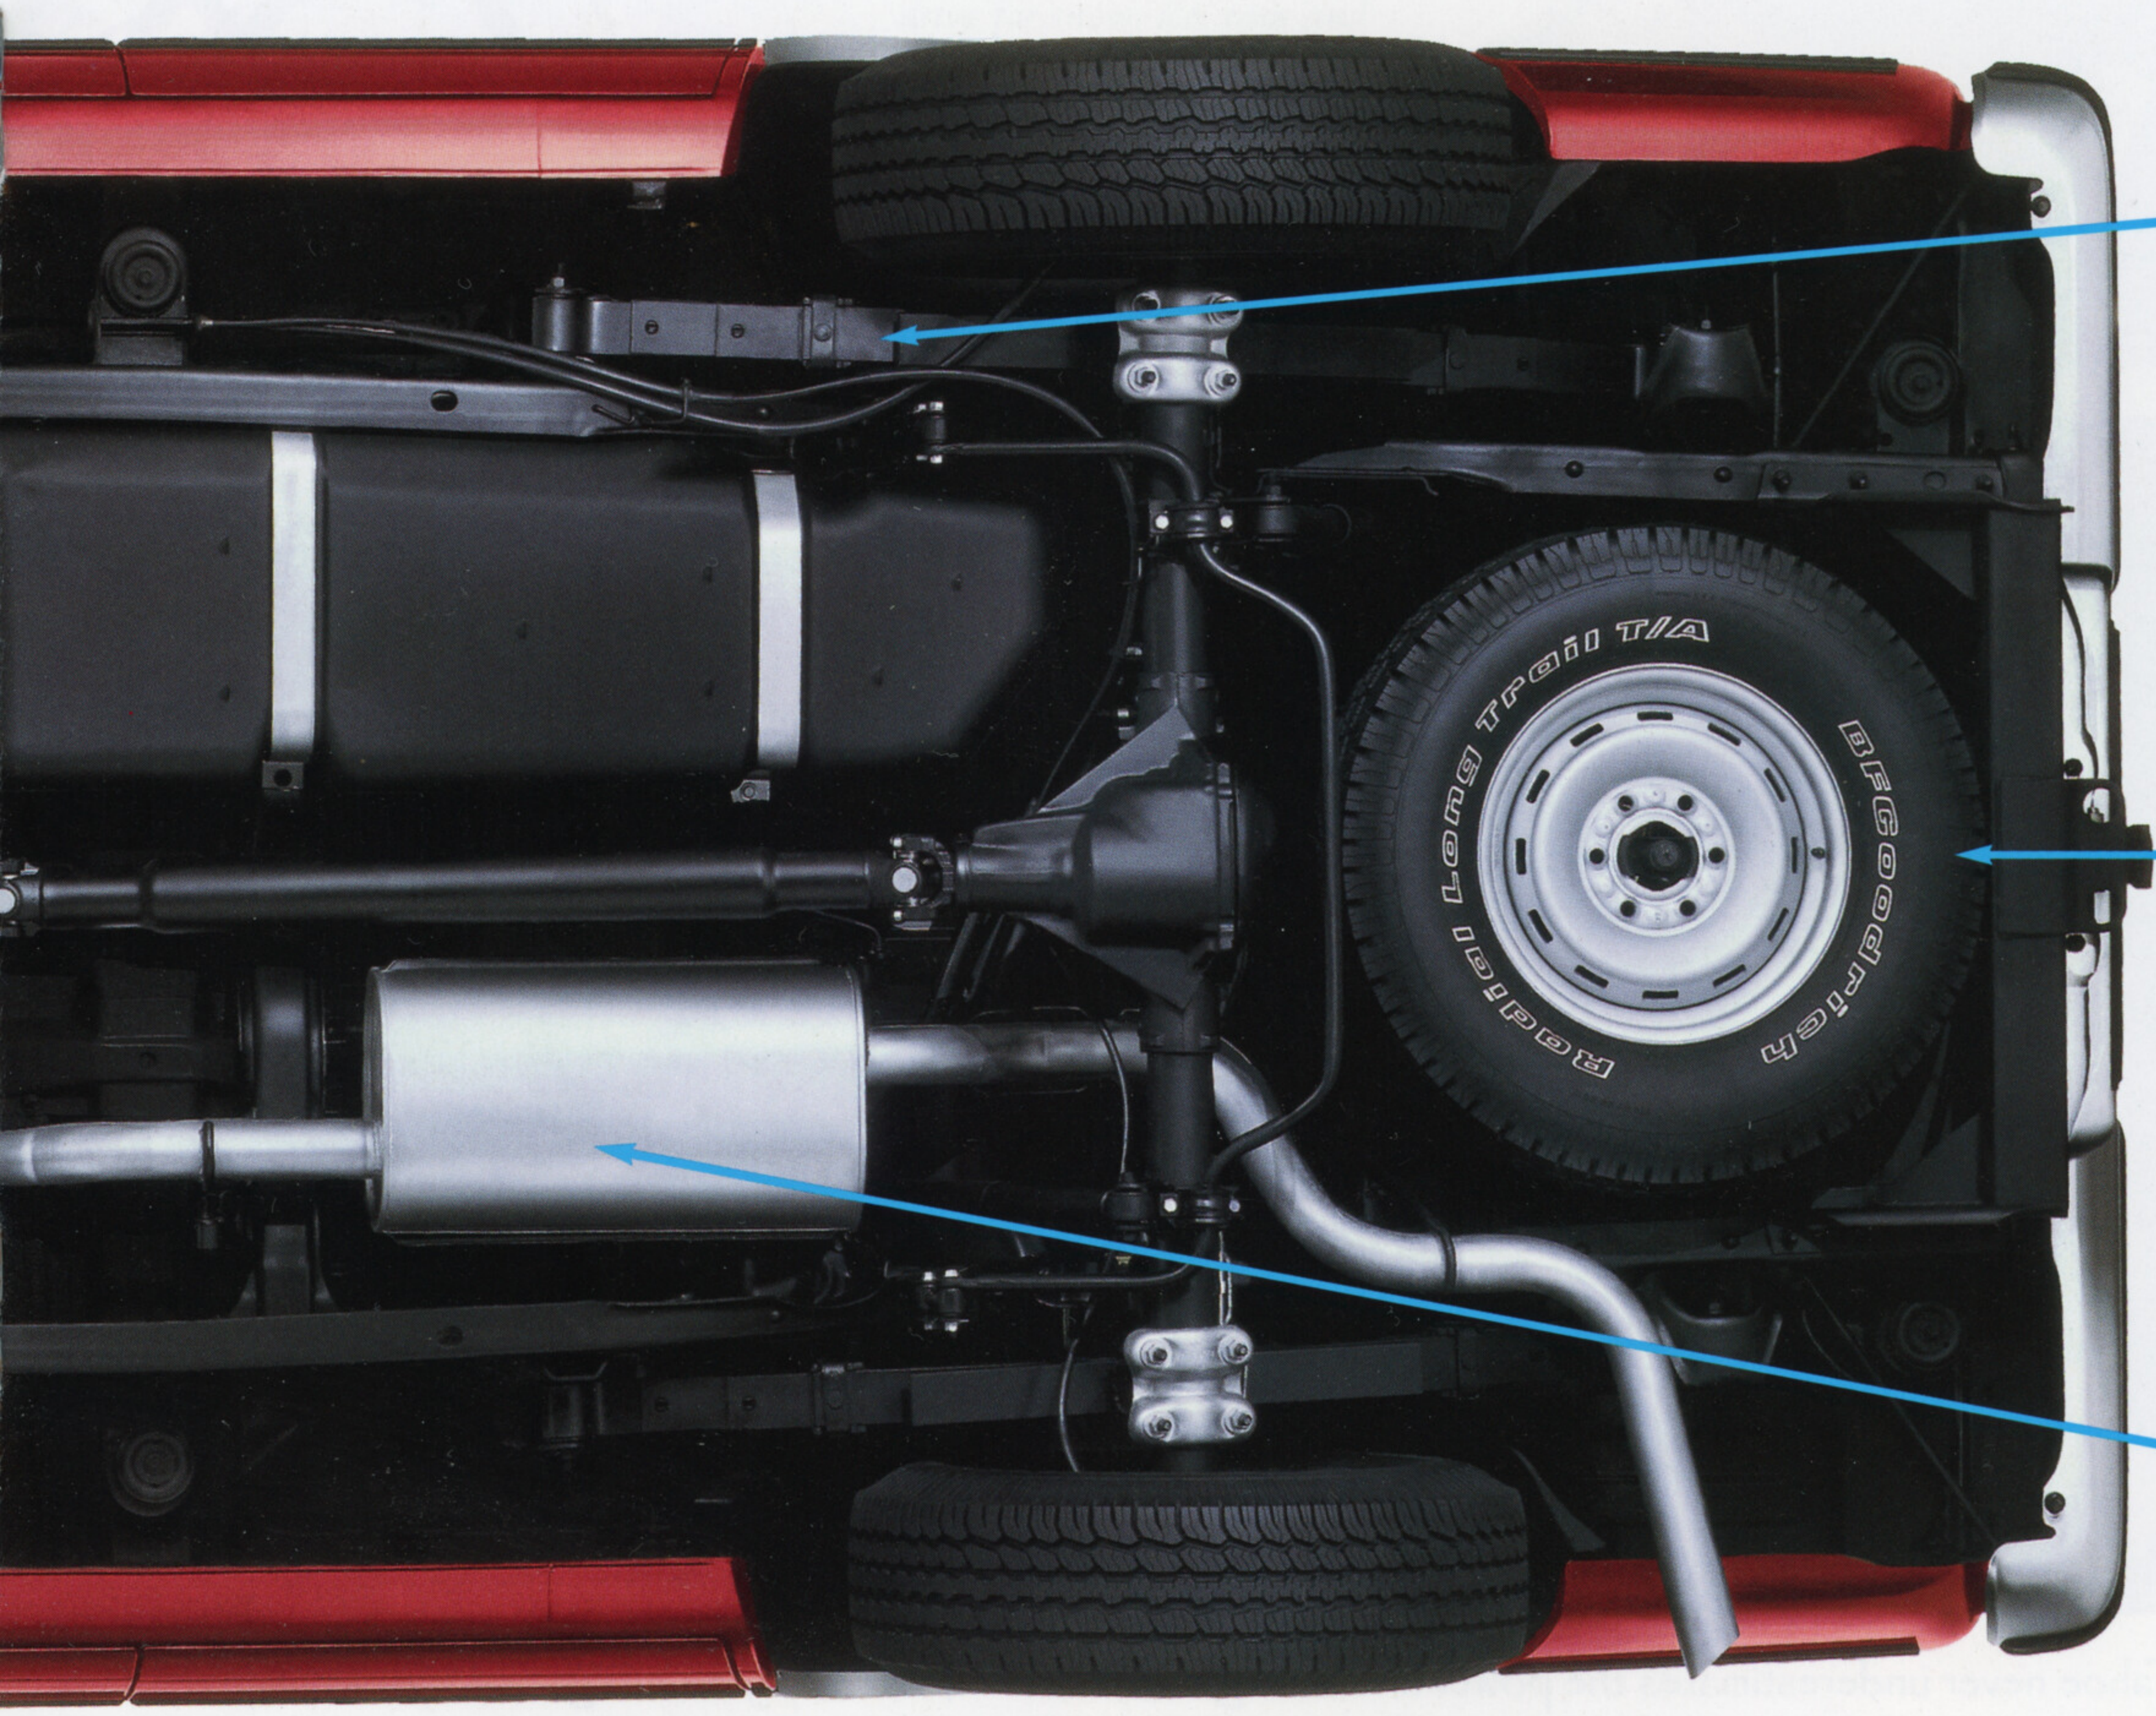

Tahoe is designed, engineered and built to endure the headstrong forces of nature. With so much attention to detail, you'll appreciate its immense strength and dependability.

FLUSH-MOUNTED DOOR HANDLES.
Flush-mounted door handles are easy to grip, help reduce wind noise and enhance the sleek Tahoe profile.

TRIPLE DOOR SEALS.
Extensive sound insulation and triple door seals help provide a quiet ride by shutting out road and wind noise.

FLUSH-MOUNTED GLASS.
Flush-mounted glass in the windshield, side windows and rear window helps reduce wind noise and contributes to the aerodynamic appearance of Chevy Tahoe.

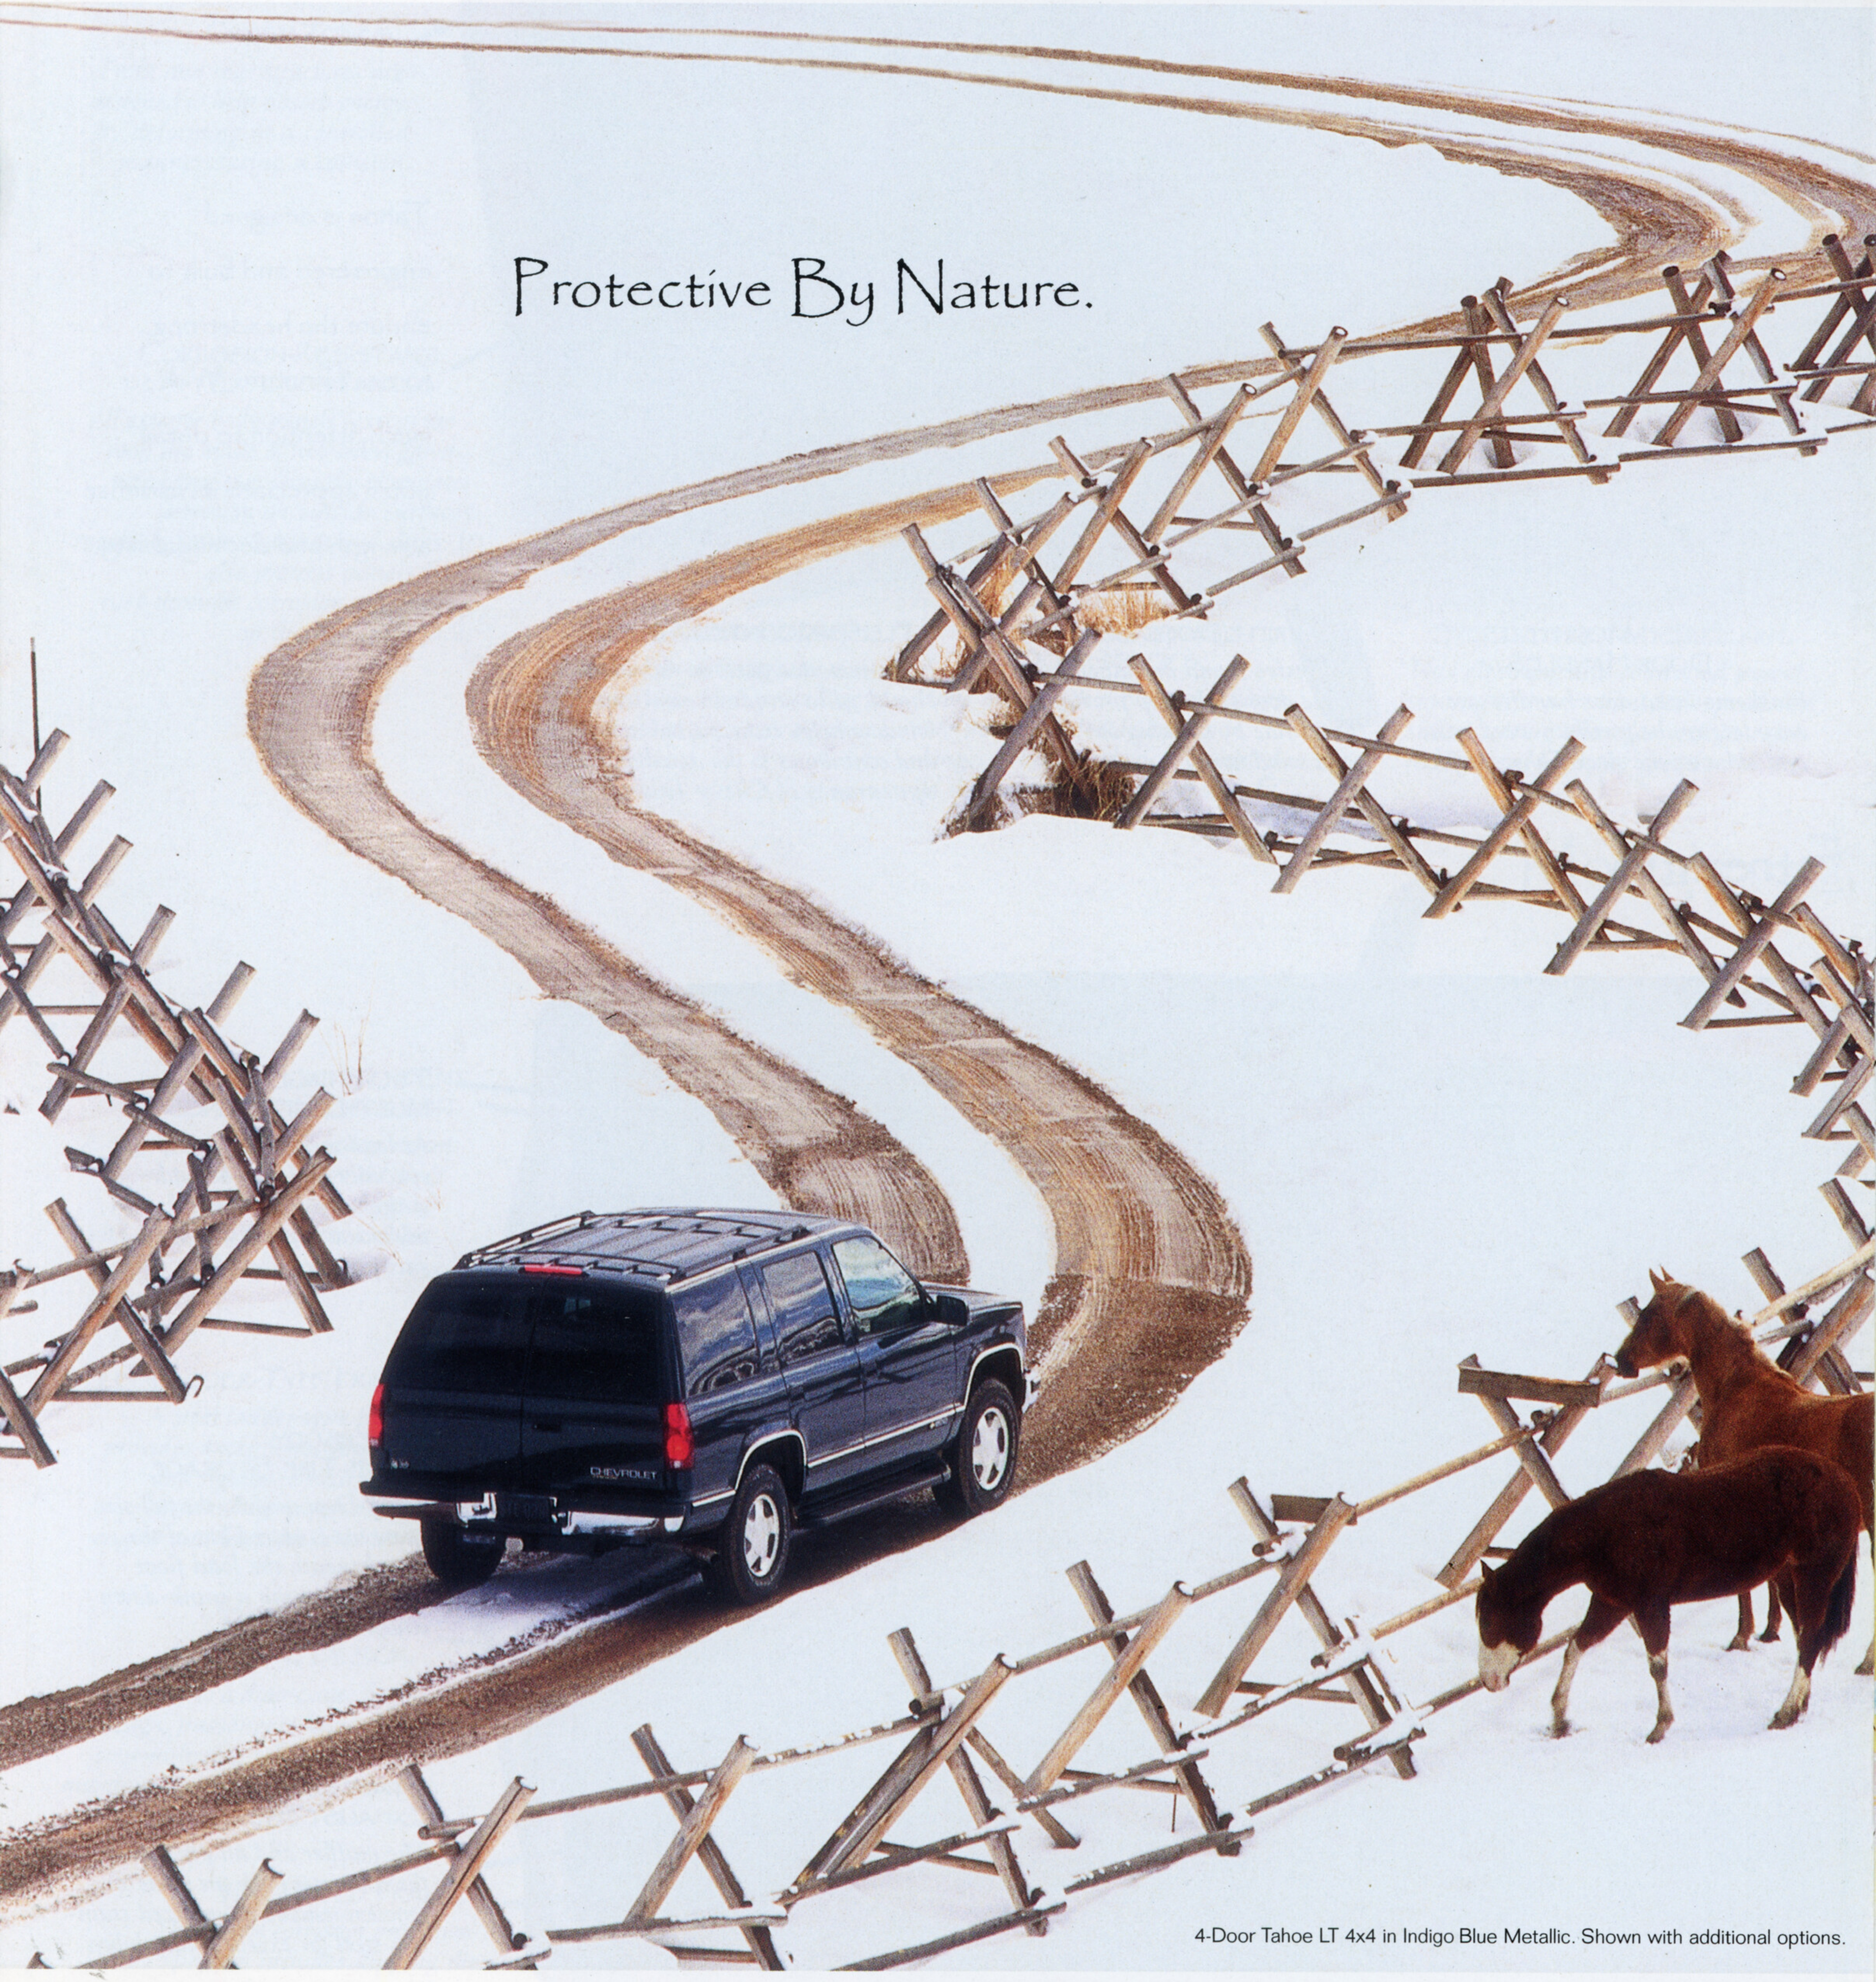

Strength.

TWO-STAGE MULTI-LEAF SPRINGS.
As load weight increases, specially designed second-stage springs provide additional support without sacrificing ride quality.

UNDERBODY SPARE-TIRE STORAGE.
On 4-Door models, the full-size spare tire is stored out of the way beneath the load floor and lowers with a crank-down winch when needed.

STAINLESS-STEEL EXHAUST SYSTEM.
The muffler and all pipes from the converter back are made of corrosion-resistant aluminized stainless steel for excellent durability.

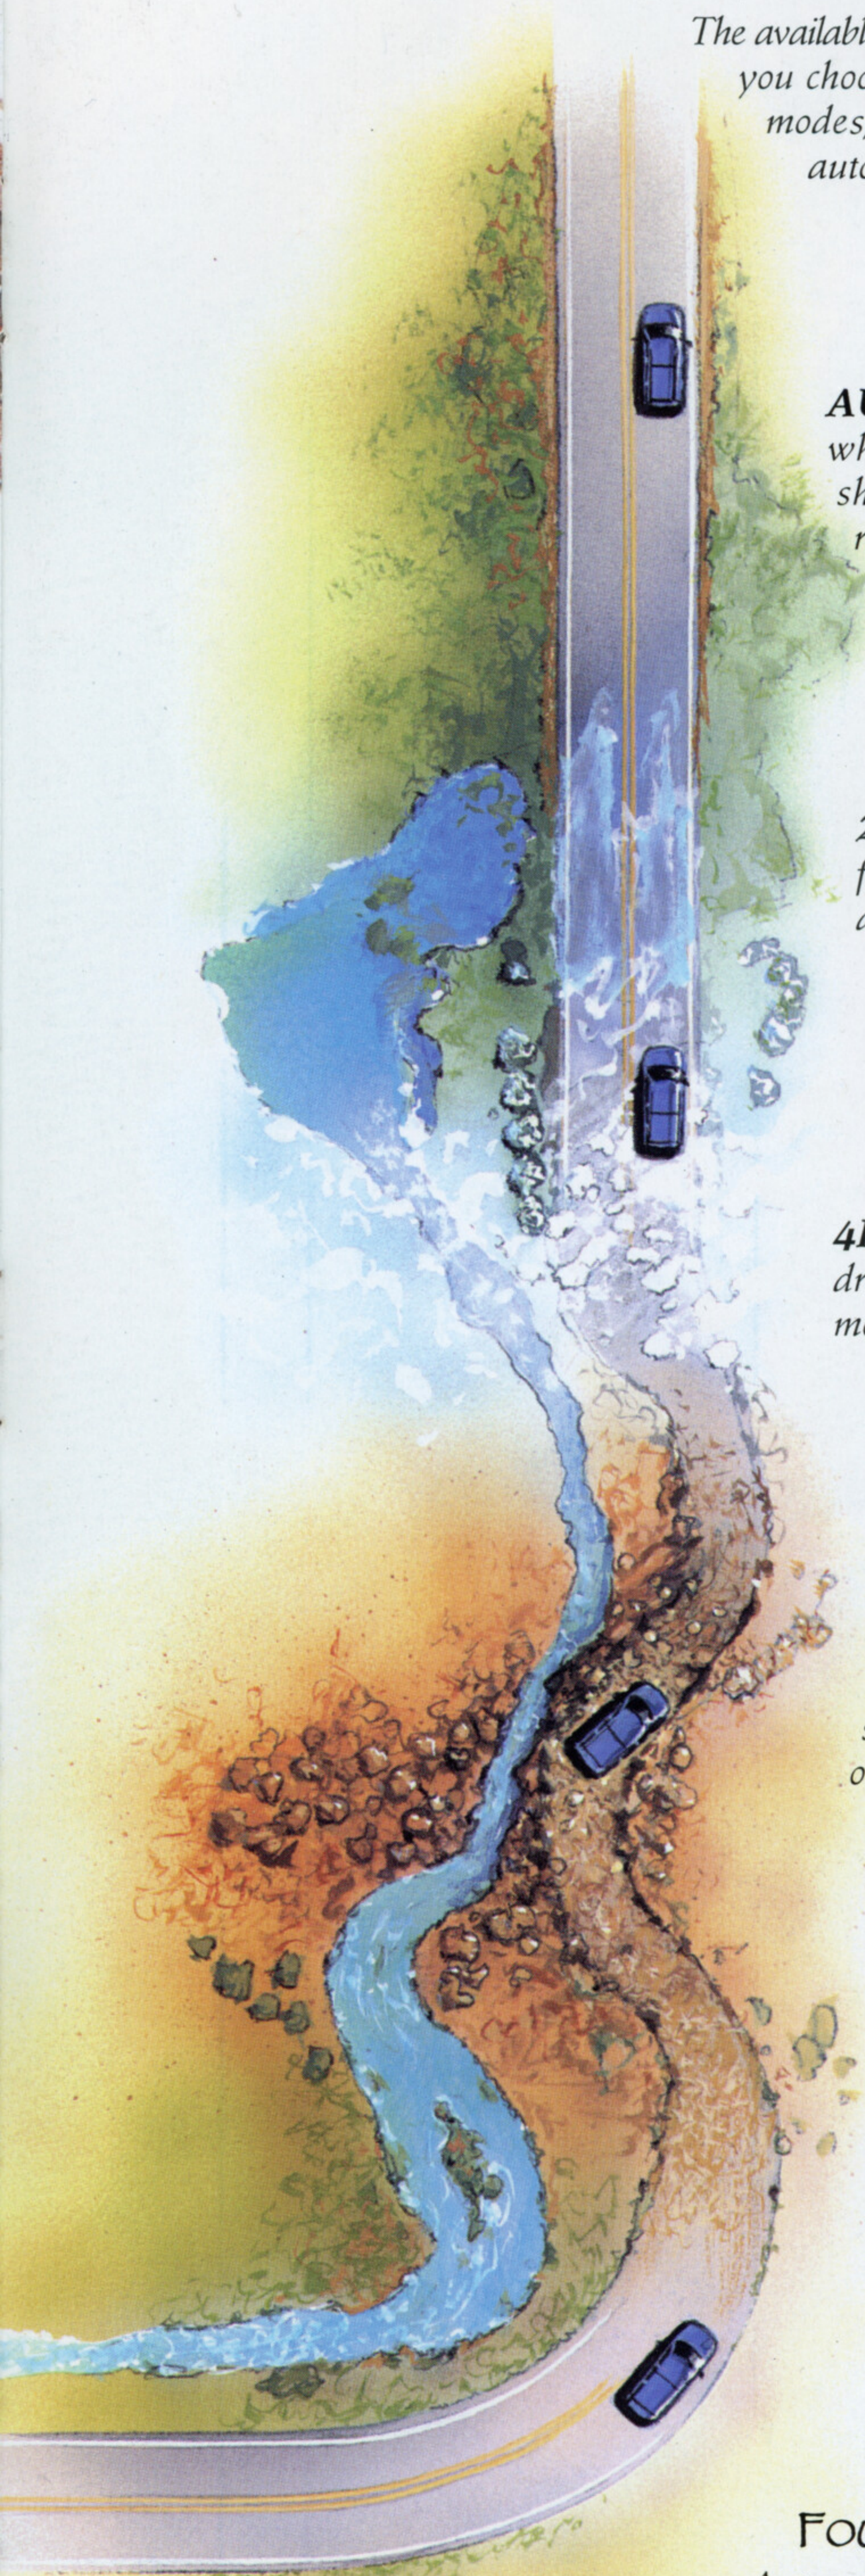

4-Door Tahoe LT 4x4 in Indigo Blue Metallic. Shown with additional options.

Tahoe never underestimates the power and strength of nature. That's why it's integrated with a comprehensive safety system of crash avoidance, occupant protection and security features. Protective by its very nature, Tahoe offers additional peace of mind and security no matter where your travels take you.

Autotrac 4x4 System.

The available Autotrac 4x4 transfer case lets you choose between four distinct driving modes, including the convenience of automatic four-wheel drive.

AUTO 4WD *— Detects rear-wheel slippage and automatically shifts into and out of 4WD, as road conditions dictate. Just set it and forget it.*

2HI *— Two-wheel drive for most driving conditions and optimal fuel economy.*

4HI *— Full-time four-wheel drive for snow, ice, rain and most off-road conditions.*

4LO *— Low-speed 4WD for extreme conditions like steep hills, deep sand, mud or deep snow.*

NEUTRAL *— A provision for Neutral is included with the Autotrac system.*

Four-Wheel ABS.

A standard four-wheel antilock brake system (ABS) is designed to help the driver maintain steering control by reducing wheel lockup while braking hard on most slippery surfaces.

Daytime Running Lamps.

During daytime driving situations, reduced-intensity headlamps come on automatically to help alert other roadway users to your oncoming vehicle.

Side Door Beams.

Tahoe has double-wall steel front and rear side doors, reinforced with a structural steel beam designed to help avoid intrusions into the passenger compartment in shallow-angle side impacts.

Remote Keyless Entry.

Available Remote Keyless Entry allows you to remotely lock and unlock all doors and activate interior lighting from up to 30 feet away.

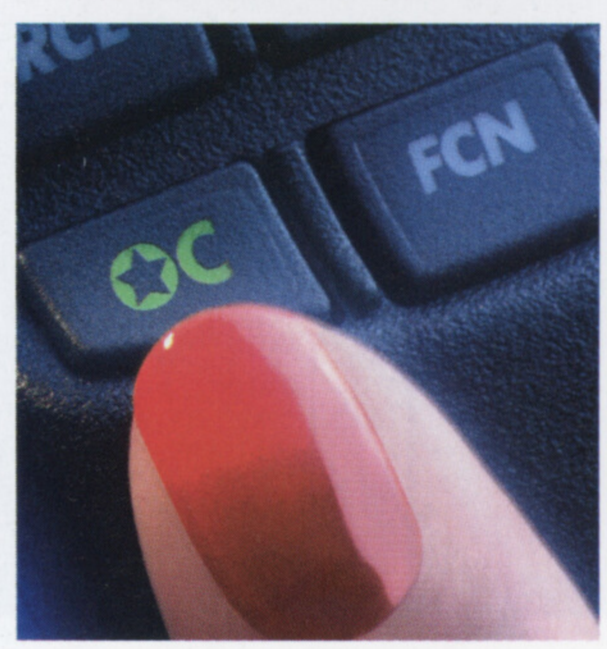

Passlock® Theft-Deterrent System.

Passlock® automatically disables the vehicle's fuel system if the proper key is not used.

Child Security Locks.

Tahoe 4-Door models feature child security locks on rear doors. When activated, they prevent children from accidentally opening a rear door while the vehicle is moving.

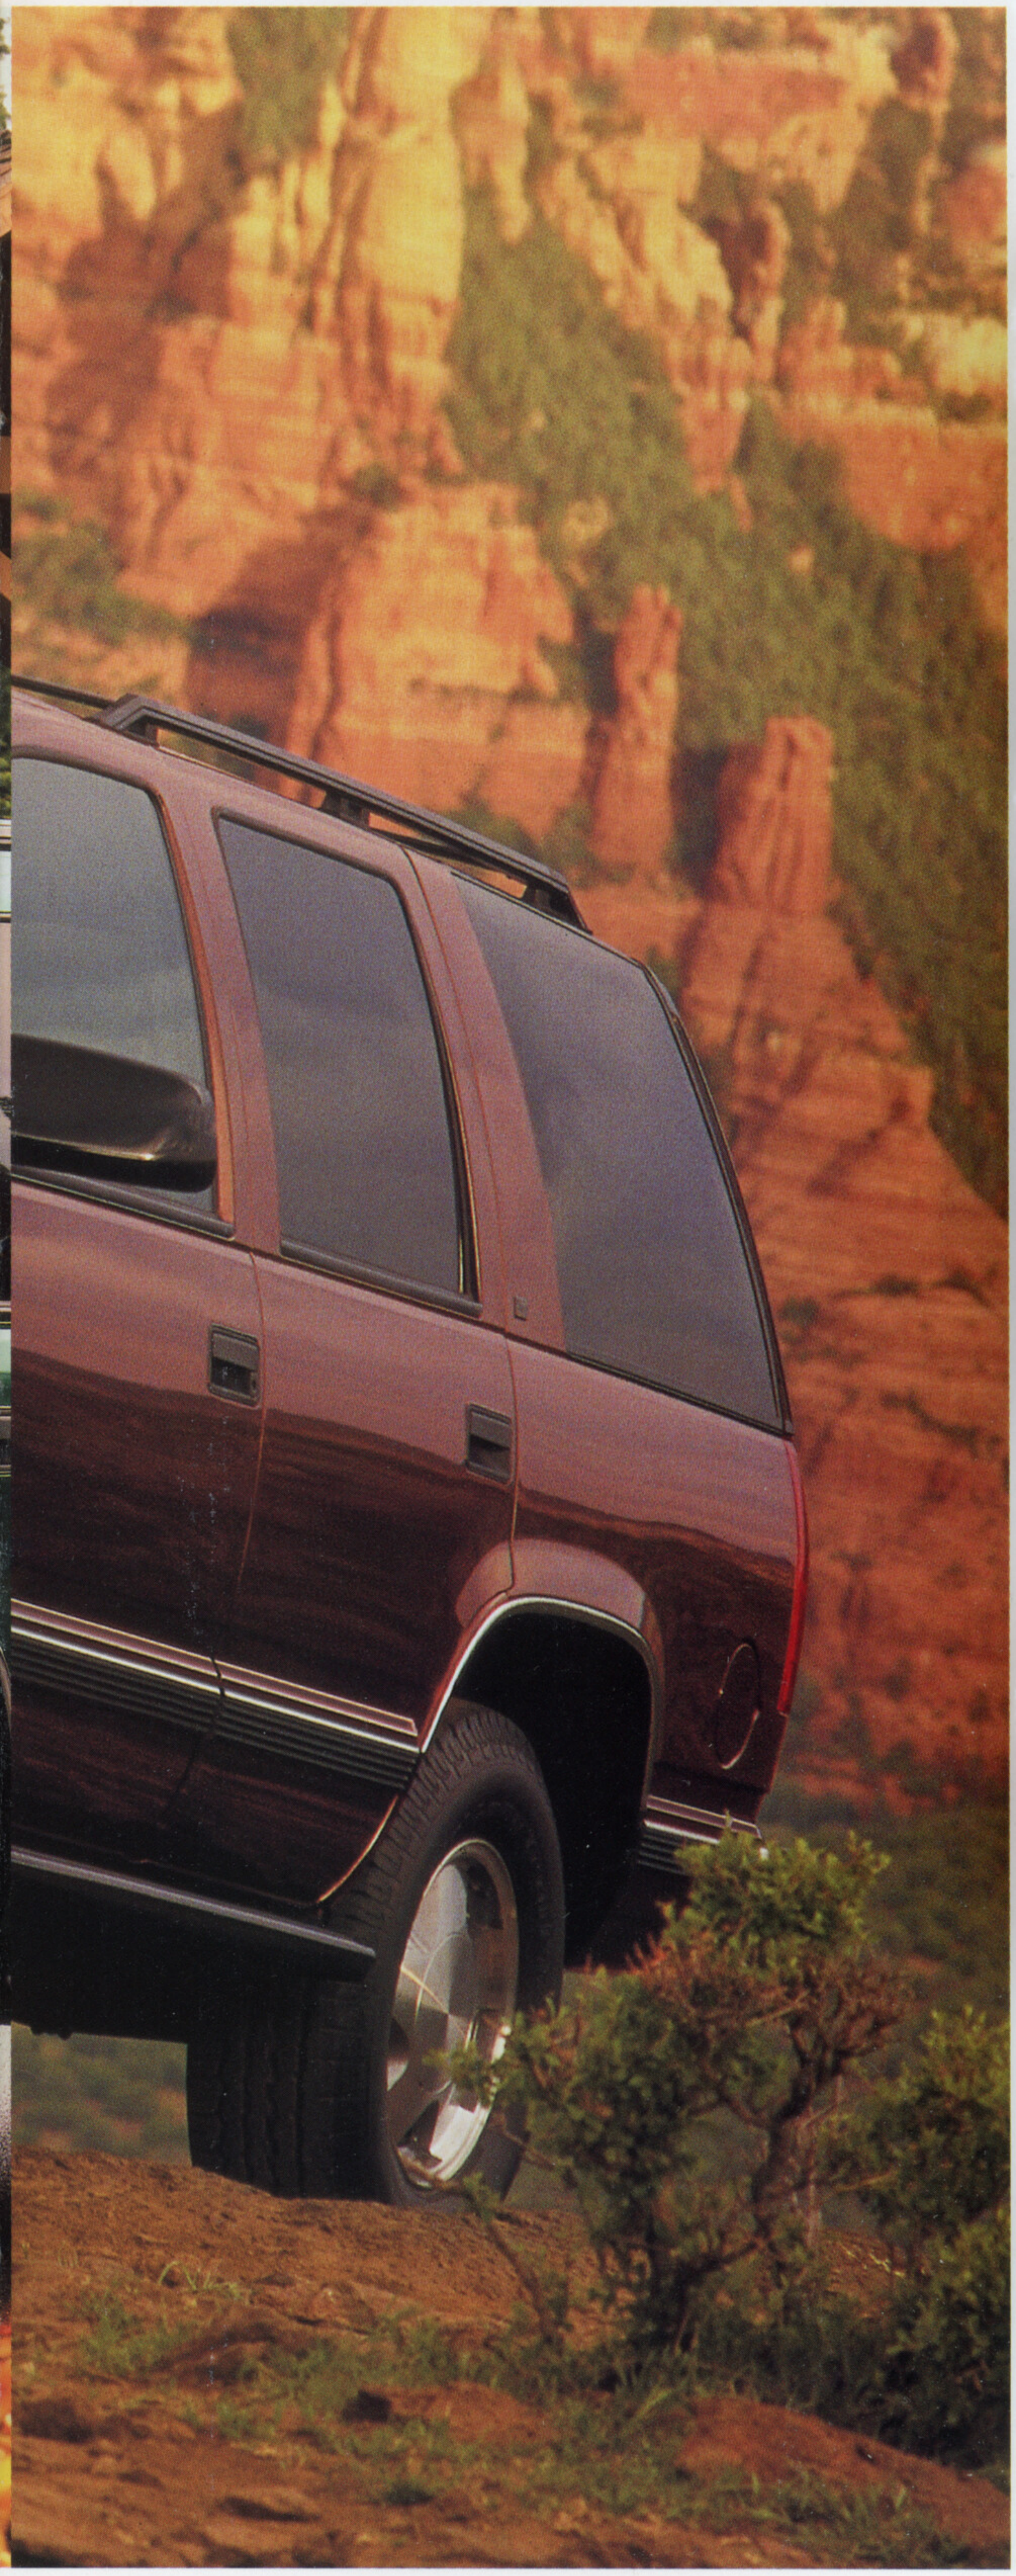

OnStar System.

With this remarkable service, day or night, an OnStar advisor is available to provide emergency help, directions, hotel and restaurant locations and much more. In an accident in which air bags deploy, OnStar will automatically send a call for help. For more information about OnStar, call 1-888-667-8277.

4-Door Tahoe LT 4x4 in Dark Copper Metallic. Shown with additional options and dealer-installed GM Accessories.

You can personalize your Tahoe with a variety of Chevy dealer-installed options. See your Chevy dealer for a complete list of GM Accessories that can bolster the comfort, convenience and great looks of Tahoe.

Grille/Brush Guard And Foglamps.

A grille/brush guard completes the wraparound appearance of Tahoe, while foglamps help enhance visibility during poor driving conditions.

Bike Rack.

Take your bike along with this popular dealer-installed option. It attaches quickly and easily to the standard LS and LT roof luggage carrier. Each rack holds one bike.

Color-Keyed Running Boards.

Designed specifically for Tahoe, securely mounted running boards not only enhance its appearance but make getting in and out easier.

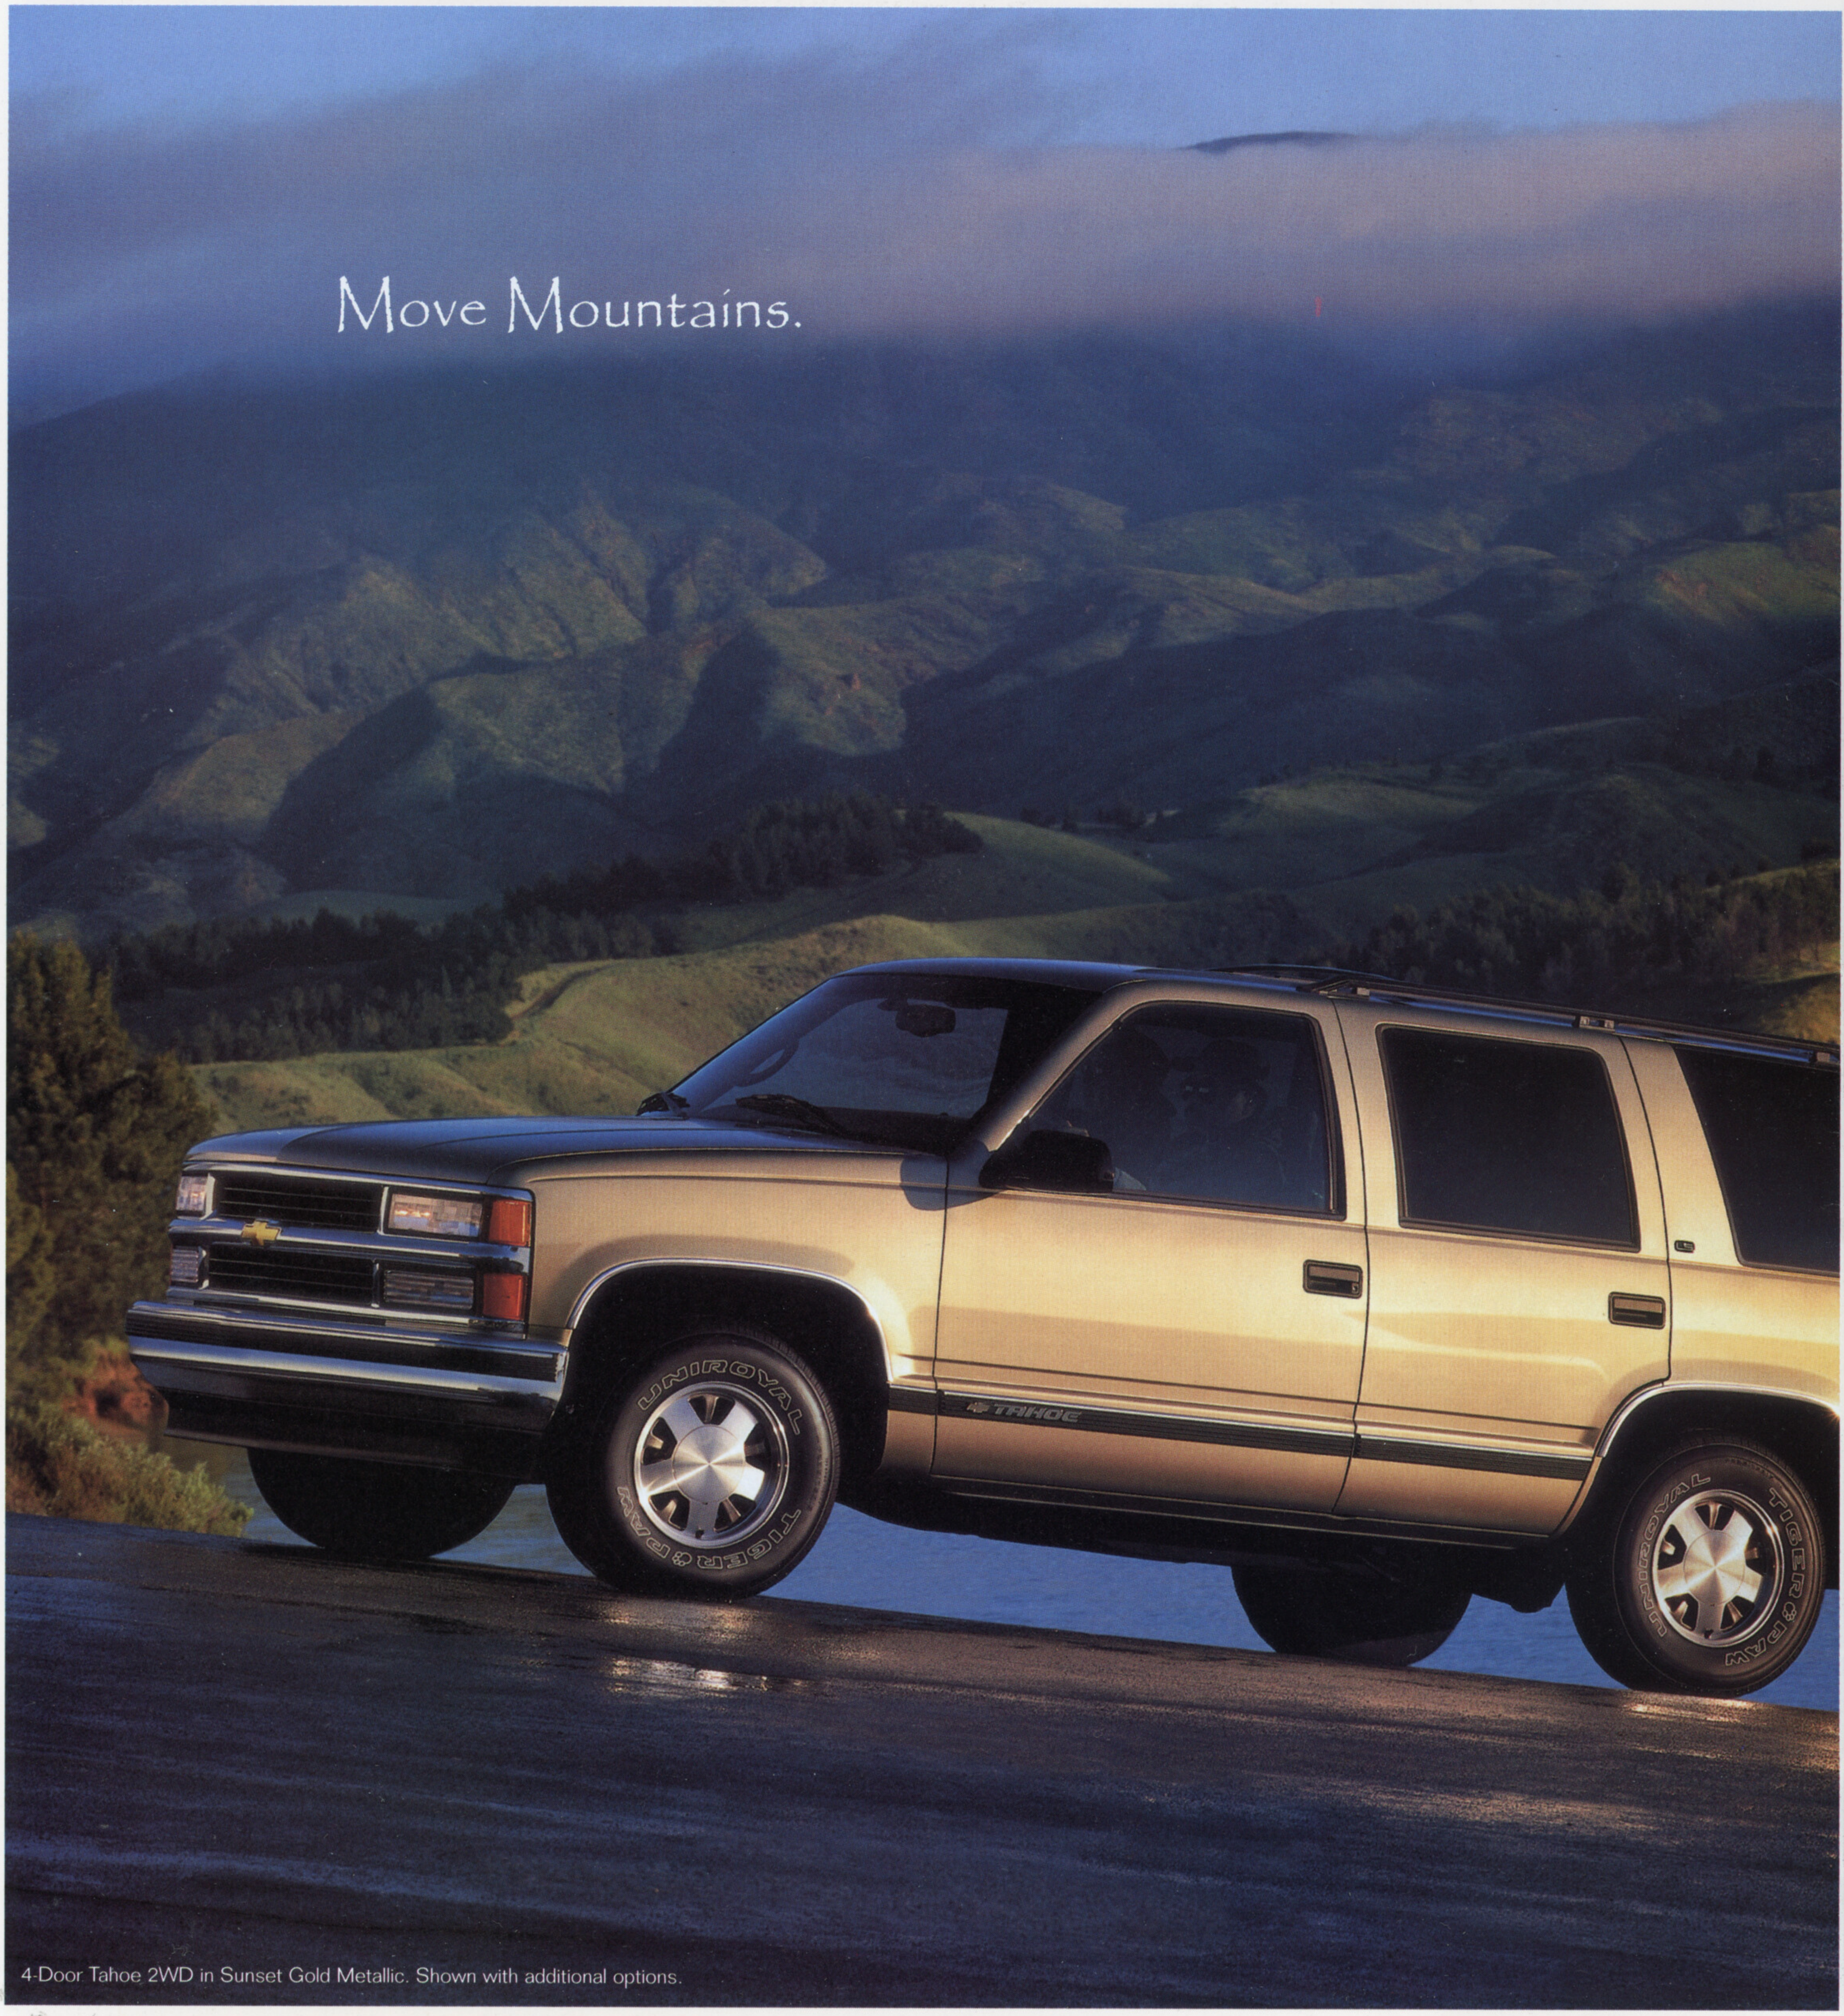

Cargo Organizer.

Cargo storage is easier than ever with this convenient cargo organizer that's designed to fit precisely inside Tahoe. The divider system has adjustable partitions that can accommodate a variety of shapes and sizes, from grocery bags to sporting equipment.

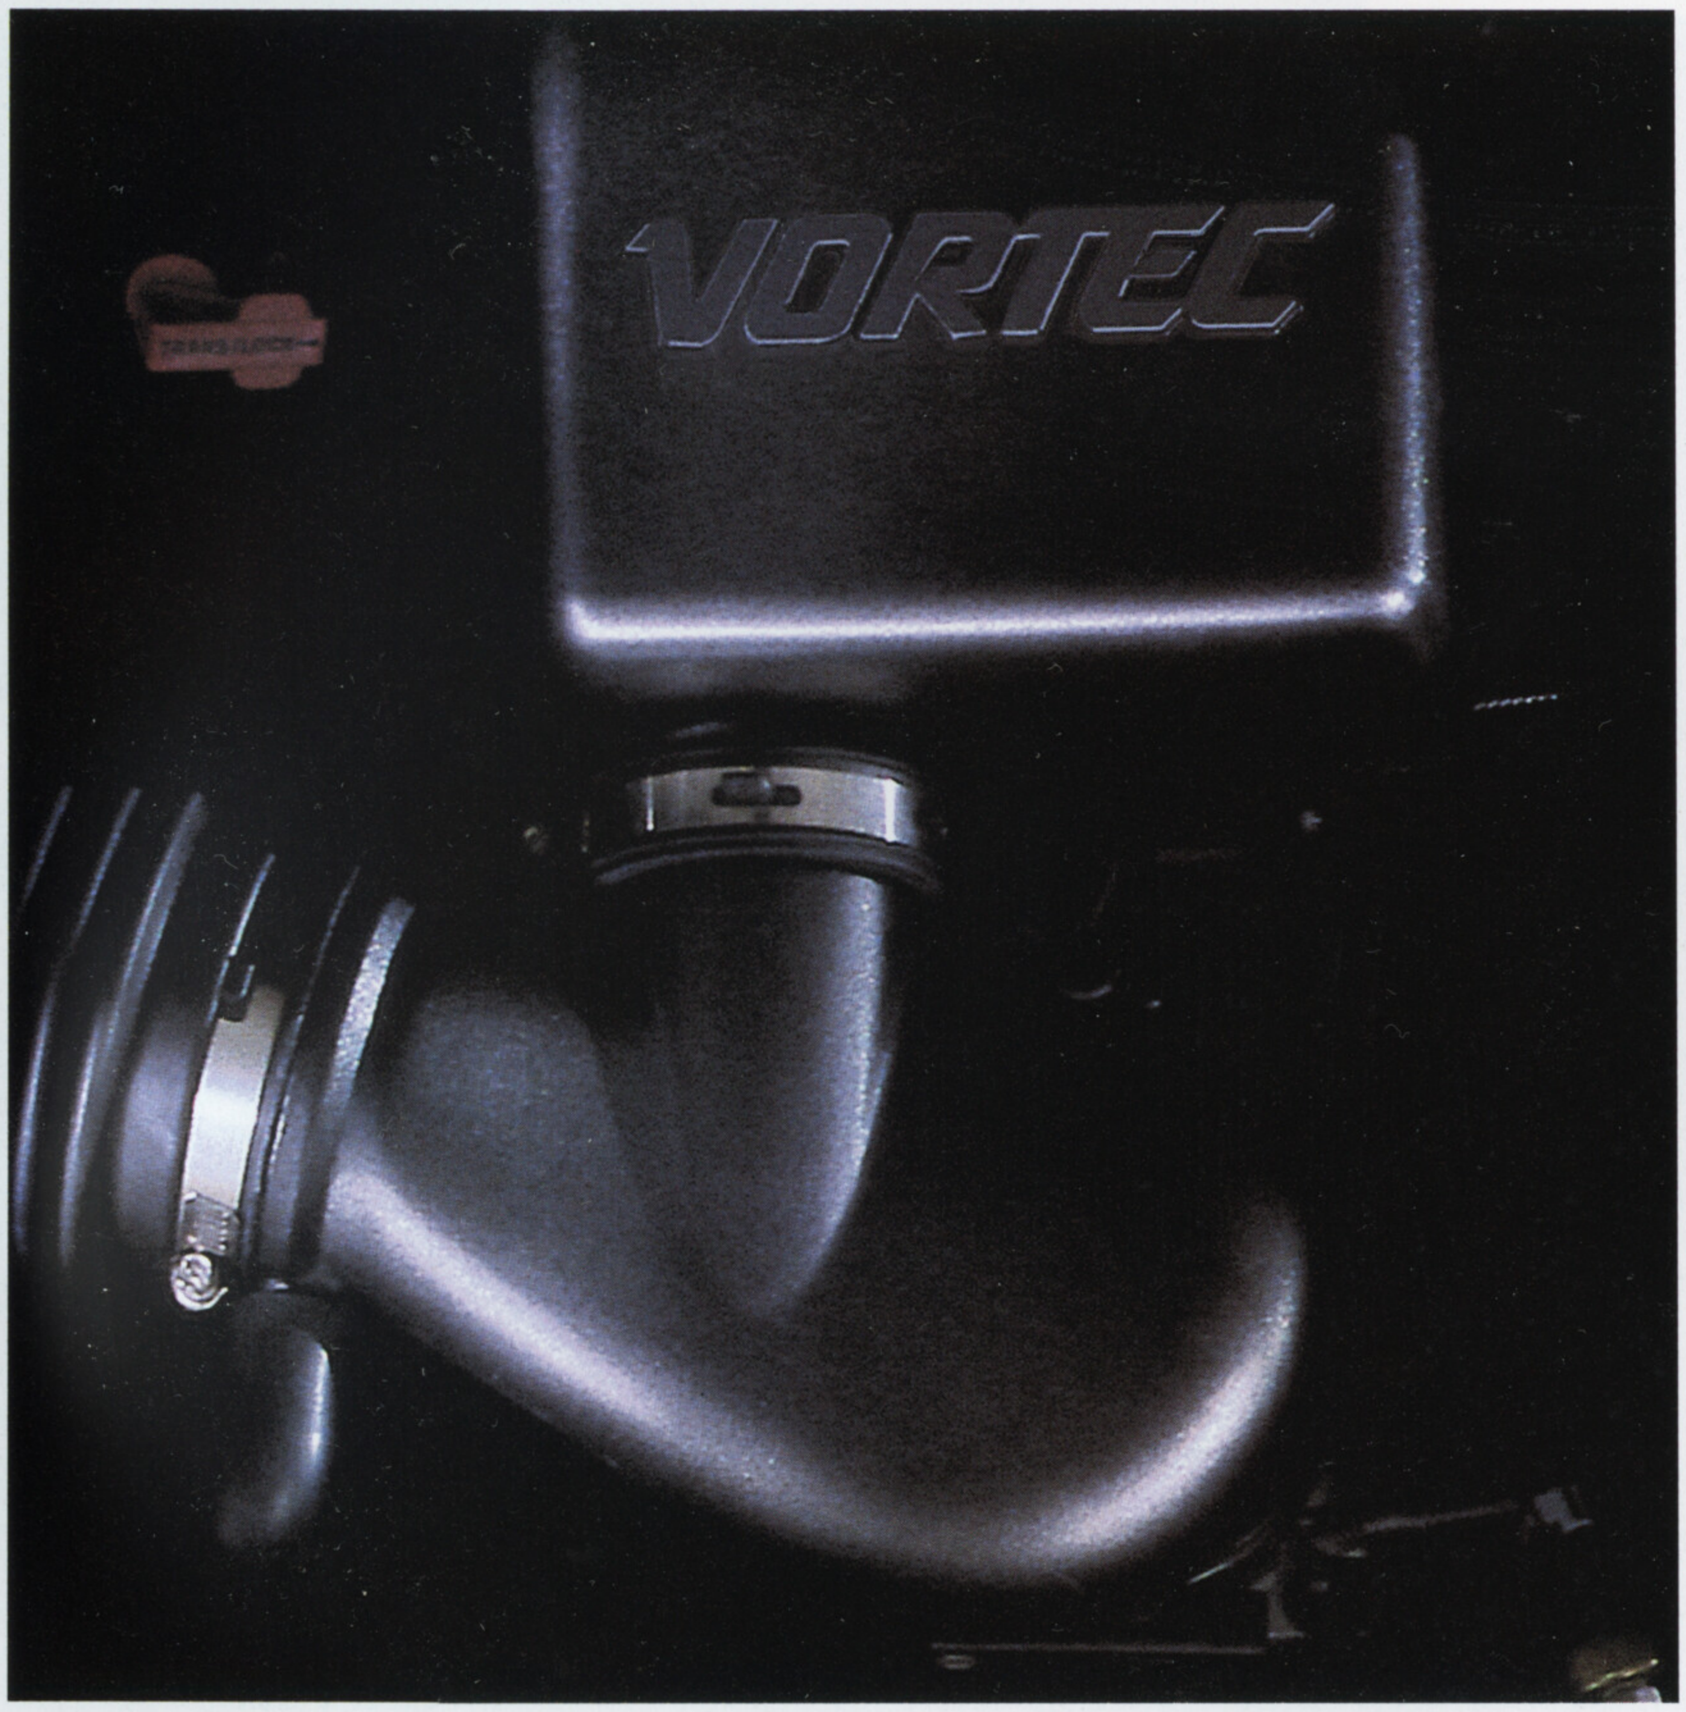

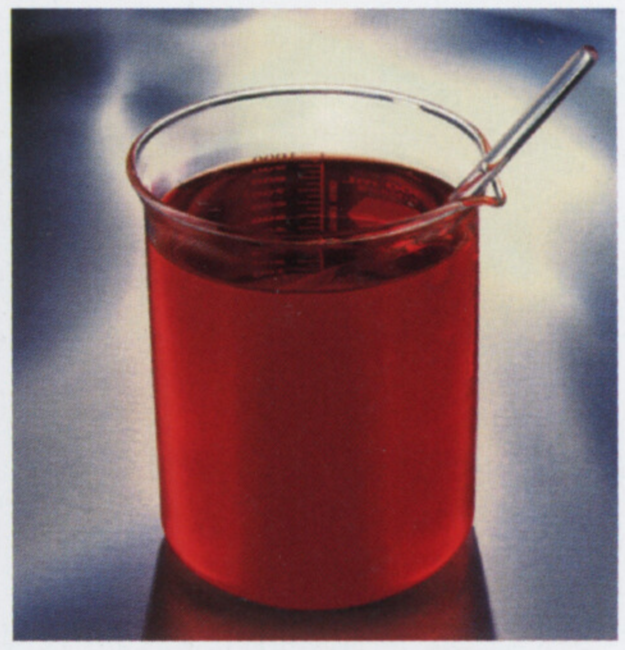

12-Disc CD Changer.

With this 12-disc CD changer, you'll travel miles and miles before you run out of your favorite music. It's neatly concealed out of the way.

4-Door Tahoe 2WD in Sunset Gold Metallic. Shown with additional options.

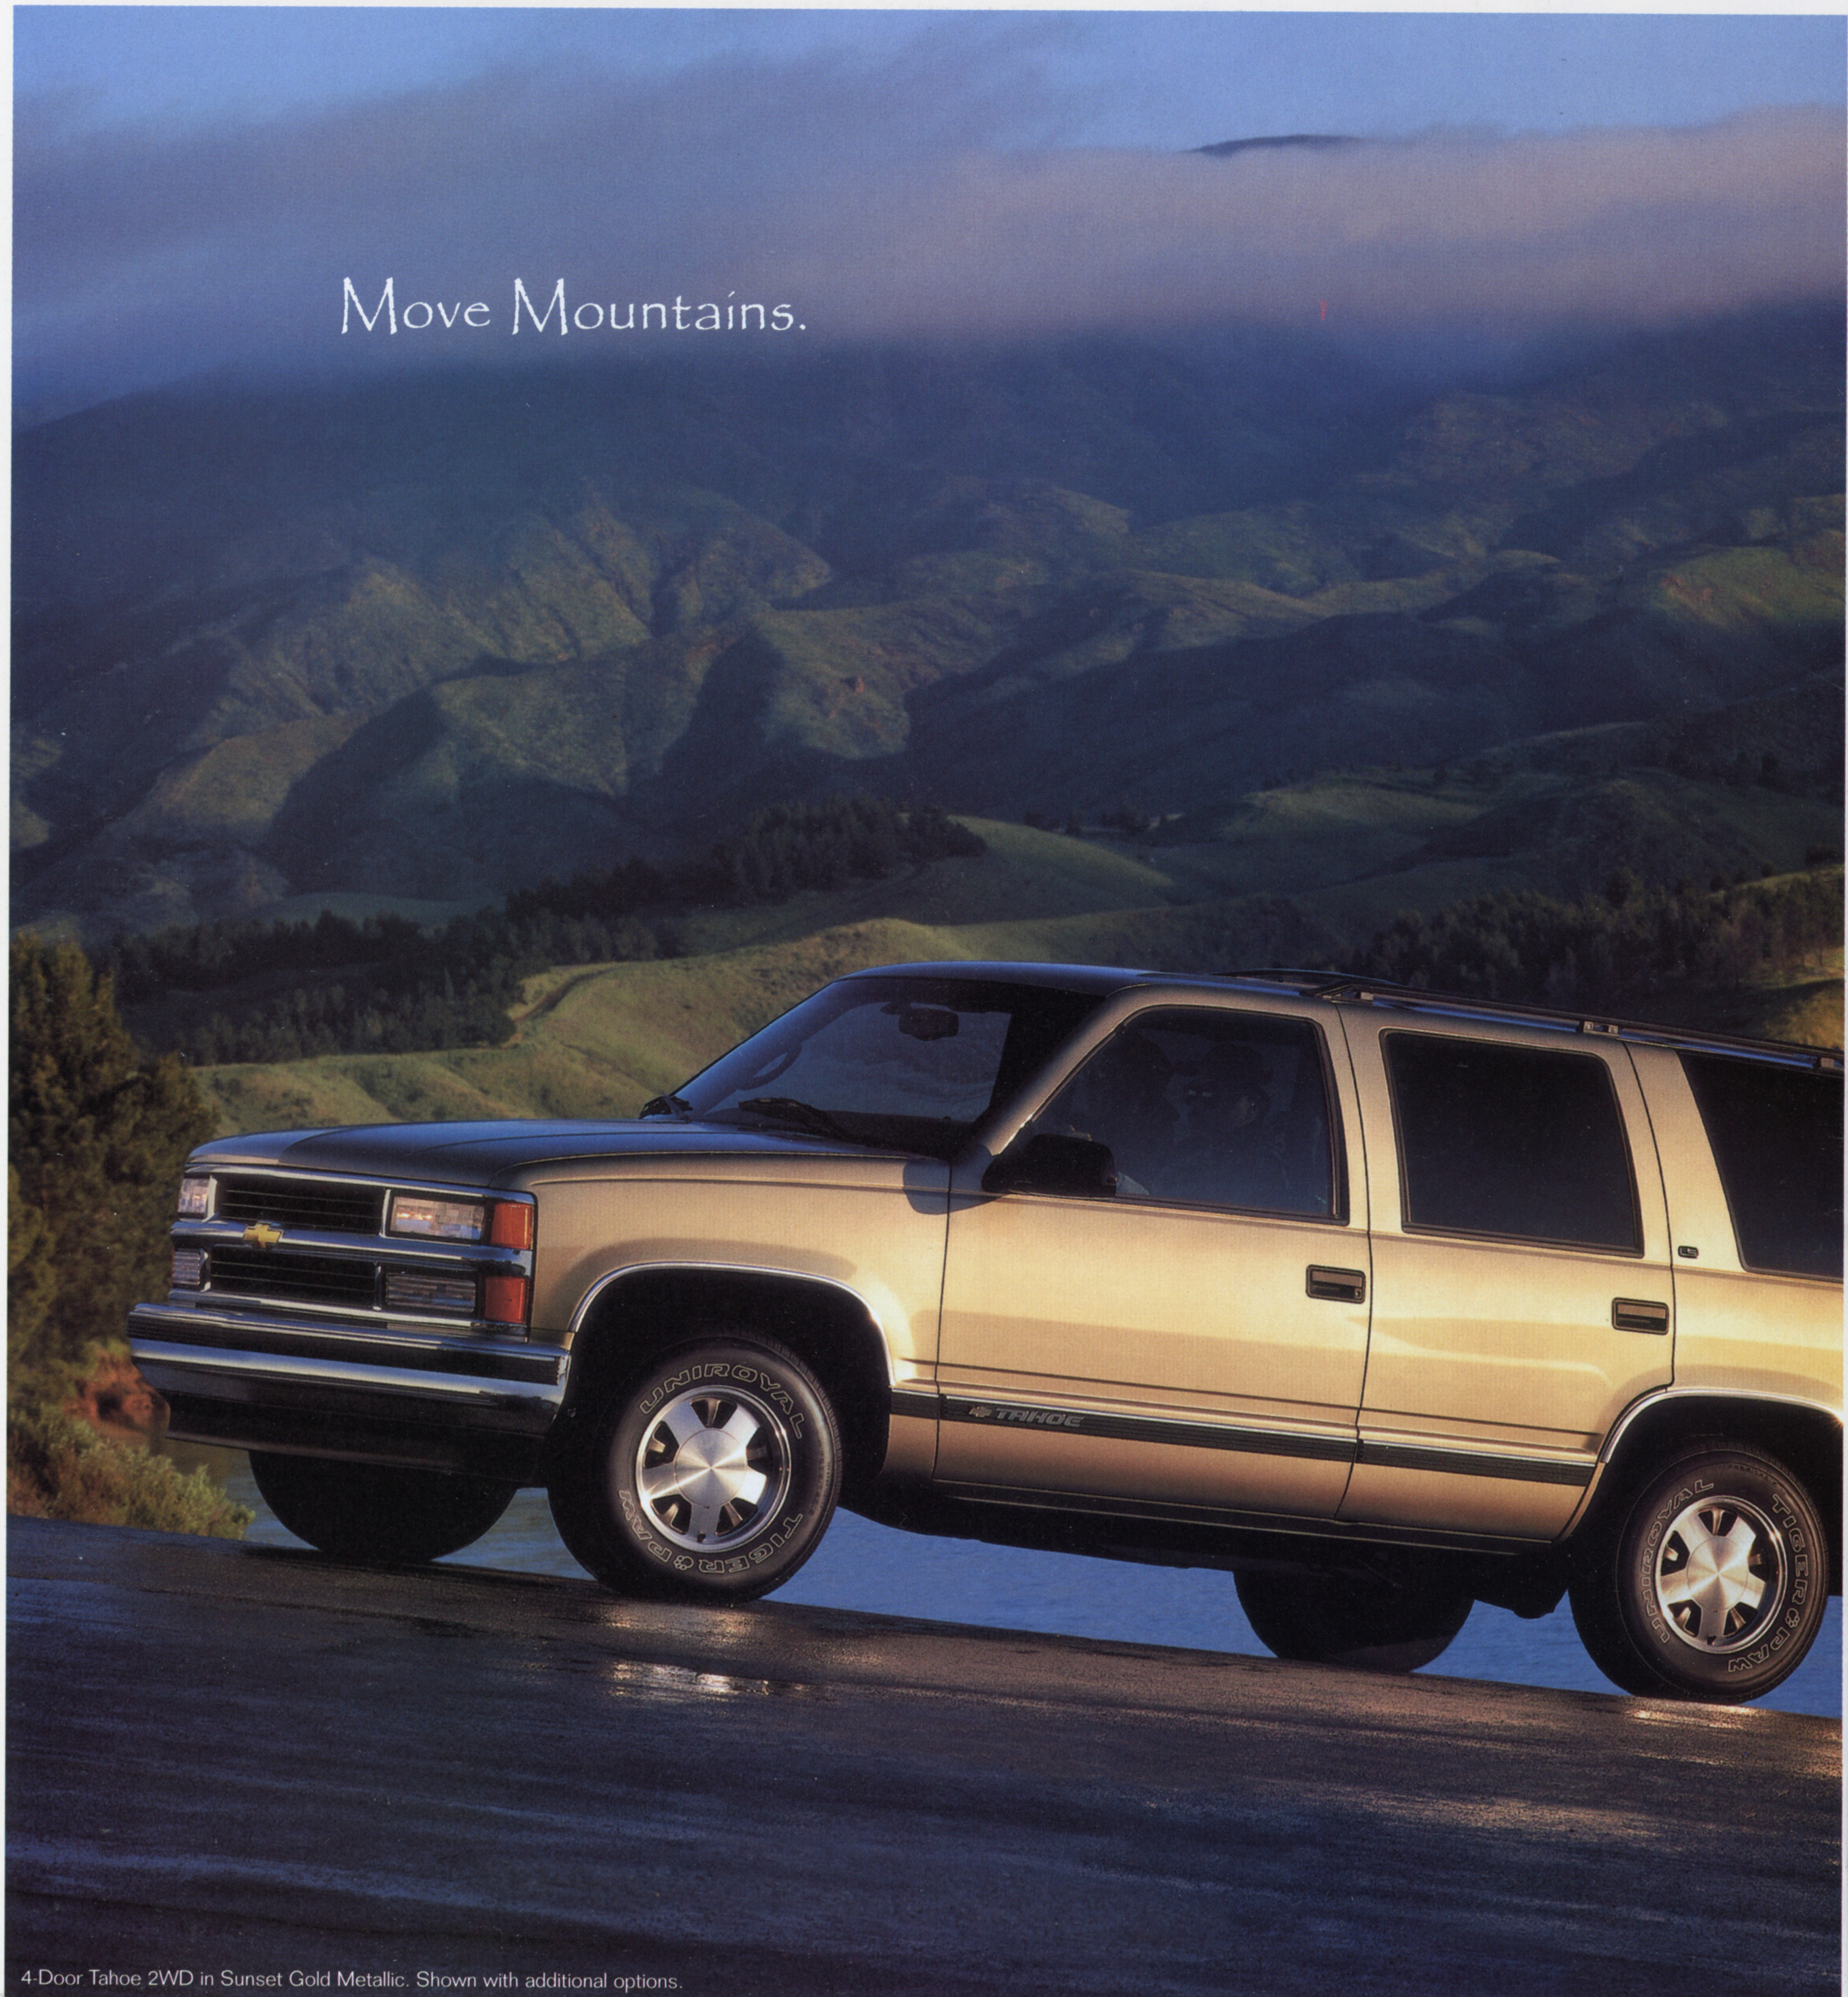

EXTENDED-LIFE COOLANT.
*The first recommended engine coolant change interval in Chevy Tahoe is at 150,000 miles or five years, whichever comes first.**

Anyone who's ever been to the Grand Canyon understands how the steady power of water can move mountains over time. Anyone who's ever owned a vehicle equipped with a Vortec engine understands the steady and strong performance of this exclusive family of engines. All Tahoe models feature the robust Vortec 5700 V8 SFI engine. Vortec engines deliver outstanding horsepower and torque, giving you power where you need it, when you need it. Maintenance is easy with platinum-tip spark plugs that help the engine travel up to 100,000 miles before they need replacing.* Vortec engines also deliver fuel to each cylinder through a precise, high pressure system. Matched to an electronically controlled automatic transmission, the Vortec 5700 inspires confidence to tow, haul and pass.

*Maintenance needs vary with different uses and driving conditions. See the owner's manual for more information.

ENGINE	VORTEC 5700 V8 SFI[1] (RPO L31)
Displacement (liters)	5.7
HP @ RPM	255 @ 4600
Torque (lb.-ft.) @ RPM	330 @ 2800
TRANSMISSION	Electronically Controlled 4-Speed Automatic Overdrive[2]

1 Sequential Fuel Injection.
2 Includes brake/transmission shift interlock.

4-Door Tahoe 2WD in Sunset Gold Metallic. Shown with additional options.

Confidence In Tow.

When it comes to trailering, Tahoe is one beautifully designed vehicle. With its full-size strength, Tahoe gives you the confidence to bring along even large towables. Speed-sensitive power steering, power brakes, eight-lead trailer wiring harness, 100 amp alternator, front stabilizer bar, transmission oil cooler and dual below-eyeline fold-away exterior mirrors are all standard on every trailering-equipped Tahoe.

Trailering Basics.

Towing a trailer involves all major vehicle systems of your Chevy truck, including powertrain, steering, suspension and brake systems. Easy and safe trailering requires a properly equipped vehicle, additional trailering equipment and an appropriate trailer. It also requires loading both the vehicle and trailer properly, using safe driving techniques, meeting regional legal requirements and following break-in and maintenance schedules. You are responsible for being sure you have the appropriate equipment and hitch for your specific trailering situation. If you plan to tow a trailer, consult your owner's manual and speak to a trailering expert at your Chevrolet dealership or visit our web site at www.chevrolet.com.

The charts on this page will assist in determining how to best equip your Chevy truck for trailering. To help you understand the charts, consider these trailering factors:

Torque: *Indicates the strength of the engine. Low-end torque reflects how much force is generated to get your vehicle moving.*

Horsepower: *Indicates how much work the engine does at a certain engine speed. At mid- to high-engine rpm, it's what keeps you moving at highway speeds.*

Axle Ratio: *Along with your vehicle's transmission gears, a higher rear axle ratio contributes to how much available torque and horsepower (mechanical leverage) can be applied to the drive wheels for launch and uphill performance. Higher rear axle ratios, however, sacrifice fuel economy when not trailering.*

Ball Hitch Trailering: *There are two types of ball hitches. A weight-carrying hitch consists of a ball and coupler with no means to distribute the hitch weight. It is used primarily for lightweight trailers. Heavier trailers, however, require a weight-distributing hitch which uses spring bars to transfer some of the hitch weight forward onto the tow vehicle's front axle and rearward onto the trailer's axle(s).*

GCWR: *The Gross Combination Weight Rating is the total allowable weight of the completely loaded vehicle and trailer including any passengers, cargo, equipment and conversion. A properly equipped tow vehicle and trailer at the maximum GCWR should be able to accelerate and merge with traffic, climb typical interstate grades at highway speeds, handle the combination on most road surfaces and stop adequately within a reasonable distance. The GCWR for your vehicle should not be exceeded.*

Maximum Trailer Rating: *This rating is determined by subtracting the tow vehicle's weight (curb weight) from the GCWR. When a base vehicle (curb) weight is used, additional passengers, equipment and cargo weight must be added and will reduce the maximum trailer rating.*

A Note About Trailer Ratings: *There is no industry standard for trailer weight ratings. Definitions vary by manufacturer. Chevrolet includes the weight of the most popular options as well as a driver and one passenger and all required trailering equipment to ensure that trailer ratings are realistic. When comparing trailer ratings, note that competitor ratings may not consider the weight of optional equipment or the additional passenger so comparisons may not be equivalent.*

NOTE: *Please read this Trailering Caution safety information before trailering with your new vehicle.*
NOTE: *The safety tips described here are by no means the only precautions to be taken when trailering. See the owner's manual for the Chevy truck of your choice for additional guidelines and trailering tips.*

Trailering Tips

If you don't use the correct equipment and drive properly, you can lose control of your vehicle when you pull a trailer. For example, if the trailer is too heavy, your vehicle brakes may be less effective. You and your passengers could be seriously injured. Pull a trailer only after taking the following steps:

Trailer Brakes

If your trailer weighs more than 1,000 lbs. loaded, then it must have its own adequate brakes. Be sure to read and follow the instructions for the tailer brake controller so that it is installed, adjusted and maintained properly.

- *Don't tap into your vehicle's brake system if the trailer's brake system will use more than 0.02 cu. in. of fluid from your vehicle's master cylinder. If it does, neither braking system will work well. You could even lose your vehicle brakes.*
- *The trailer brake parts must be able to take 3,000 psi of pressure. If not, the trailer brake system must not be used with your vehicle. If everything checks out thus far, then have a qualified individual make the brake fluid tap at the port on the master cylinder that sends fluid to the rear brakes. Don't use copper tubing, because it will bend and ultimately break. Use only steel brake tubing.*

Hitches

It's important to have the correct hitch equipment. Crosswinds, large trucks going by and rough roads are just a few of the reasons why you'll need the right hitch. Here are some rules to follow:

- *If you'll be towing a trailer that, when loaded will weigh more than 5,000 lbs., be sure to use a frame-mounted, weight-distributing hitch and sway control of the proper size. This equipment is very important for proper vehicle loading and good handling when you're driving.*
- *If you have to make any holes in the body of your vehicle to install a trailer hitch, be sure to seal the holes if you ever remove the hitch. If they're not sealed, dirt, water and deadly carbon monoxide from the exhaust can get into your vehicle.*

Choice Of Rear Doors.

Access to the rear cargo area has never been easier with your choice of either rear panel doors or a liftglass/dropgate combination.

TRAILERING DATA

NOTE: Weight-carrying hitch limit: 5,000-lb. trailer with 500-lb. tongue weight.
Weight-distributing hitch and sway control required over 5,000-lb. trailer weight.

2-Door and 4-Door	Vortec 5700 v8 Engine Automatic Transmission	
Model	**Required Axle Ratio**	**Max. Trailer Weight[1] (lbs.)**
2WD	**3.08[2]**	**5000**
	3.42[2]	**6000**
	3.73	**7000**
4x4	**3.42[2]**	**5500**
	3.73	**6500**

1 Trailer ratings are calculated assuming the driver and one passenger are in the tow vehicle, and it has all required trailering equipment. Additional optional equipment, passengers or cargo may reduce trailer rating, though ratings are calculated assuming most available optional equipment is ordered.

2 Above 2000 lb. trailer rating, engine oil cooler (RPO KC4) is required with 3.08 or 3.42 axle ratio. Engine oil cooler is included with 3.73 rear axle ratio (RPO GT4) and with Heavy-Duty Trailering Equipment Package (RPO Z82).

NOTE: Trailer tongue weight should be 10 to 15% of total loaded trailer weight (up to 1000 lbs.). • Addition of trailer tongue weight cannot cause vehicle weights to exceed Rear Gross Axle Weight Rating (RGAWR) or Gross Vehicle Weight Rating (GVWR). These ratings can be found on the certification label located on the driver's side front door or door frame. • Transmission oil cooler is standard. Additional air-to-oil cooler (RPO KNP) is available. • 8-wire trailer wiring harness is standard on all models. • Z82 Heavy-Duty Trailering Equipment Package includes weight-distributing hitch platform and engine oil cooler and with optional axle ratio also includes transmission cooler (where required).

NOTE: The vehicle owner is responsible for obtaining the hitch ball, a hitch of the proper size, type and capacity, and other appropriate equipment required to safely tow both the trailer and the load that will be towed. Ask your Chevrolet dealer for advice about towing and the proper towing equipment for your new vehicle.

GROSS COMBINATION WEIGHT RATINGS (GCWRs)

THE USE OF GCWRs TO DETERMINE ENGINE, TRANSMISSION AND REAR AXLE RATIO. Perhaps you prefer to use Gross Combination Weight Ratings (GCWRs) to determine the powertrain you will require to tow a specific trailer with your Tahoe. The chart shows you the maximum allowable GCWR based on all the available truck engines and rear axle ratios. The GCWR includes the total loaded weight of both the truck and the trailer.

Engine	Axle Ratio	GCWR (lbs.)
Vortec 5700 V8	**3.08[1]**	**10,000**
	3.42[1]	**11,000**
	3.73	**12,000**

1 GCWR limited to vehicle GVWR plus 2,000 lbs. if not equipped with RPO KC4 engine oil cooler. • Model availability of the above driveline combinations must be verified by your Chevy Truck dealer for correct emissions equipment.

Additional Information.

Please Contact Us ...

For any additional information on 1999 Chevrolet car or truck products, call **1-800-950-2438** or visit us on the Internet at **http://www.chevrolet.com.**

Customer Assistance Center.

The Chevrolet Customer Assistance Center has a special toll-free number: **1-800-222-1020**. It puts you in contact with Chevrolet Specialists who can handle any product or service question or concerns you may have with your new Chevy Tahoe.

SmartLease By GMAC.

SmartLease by GMAC makes it easy to enjoy the excellence of Chevy Tahoe. With SmartLease, qualified customers can be approved in about one hour, and you'll enjoy low SmartLease monthly payments. Plus, SmartLease offers you choices at the end of your lease. You can either buy your Tahoe at a price guaranteed up front, or return your truck with no other obligations — providing the terms of the lease have been met. For more information about SmartLease or any of the other quality GMAC financing options, see your Chevy dealer or call **1-800-32-SMART.**

Turn Plastic Into Steel With The GM Card®.

The GM MasterCard® gives you an important financial advantage on your next purchase or lease of a GM vehicle. Use The GM Card for purchases and you'll receive up to 5% of that purchase amount in GM Card Earnings. Your GM Card Earnings are over and above any other discount or incentive. To request your GM Card, call **1-800-8GM-CARD**.

The GM Mobility Program.

Chevrolet recognizes the importance of mobility to everyone's life and, therefore, offers financial assistance to persons with disabilities through the General Motors Mobility Program. This program can provide up to $1,000 reimbursement toward the cost of aftermarket mobility adaptive equipment for drivers or passengers, $200 of which may be applied towards a siren detector for drivers who are deaf or hard-of-hearing. For details and free resource information, call: **1-800-323-9935**. (TTY users: **1-800-833-9935**).

Updated Service Information.

Chevrolet regularly sends its dealers useful service bulletins about Chevrolet products. Chevrolet monitors product performance in the field. We then prepare bulletins for servicing our products better. Now you can get these bulletins, too. Ask your dealer or, for ordering information, call toll-free: **1-800-551-4123.**

Assembly.

Chevrolets and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Chevrolet trucks with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

Engines.

Chevrolet trucks are equipped with engines produced by different operating units of GM, its subsidiaries or suppliers to GM worldwide.

Corrosion Protection.

Chevrolet trucks are designed and built to resist corrosion. All body sheet-metal components are warranted against rust-through corrosion for 6 years/100,000 miles (whichever comes first). Application of additional rust-inhibiting materials is not required and none is recommended. See your Chevrolet dealer for terms of this limited warranty.

GM Protection Plan.

The GM Protection Plan offers service protection in addition to that provided by GM's New Vehicle Limited Warranty. Ask your dealer about it. Coverage available only in the U.S. and Canada.

A Word About This Brochure.

We have tried to make this brochure comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment specifications, models and availability. Since information may have been updated since the time of printing, please check with your Chevrolet dealer for complete details. Chevrolet reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times.

LIKE A ROCK.
It's more than just a song.
They're the words we live by.
They mean we build Chevy Trucks to be the most dependable,
longest-lasting trucks on the road.*
Trucks that carry that responsibility as easily as they carry a load of lumber.
Built rugged to take what the world can dish out.
Built dependable, because we know that people are counting on us.
Built for the people who get the job done, day after day.
There's a quiet satisfaction in that.
And a whole lot of pride.
Because we don't just build trucks to carry people and their loads.
We build the trucks that carry their dreams.
*Dependability based on longevity: 1981–1997 ful-line light-duty truck company registrations. Excludes other GM divisions.
